RAZER FOCUS+ OPTICAL SENSOR
Our new, improved sensor has an industry-leading 20,000 DPI with 99.6% resolution accuracy, ensuring that even the finest movement from this wireless mouse is tracked with consistency. Equipped with intelligent functions, the sensor becomes even more accurate, allowing for an acute level of precision for game-winning headshots.

Because it no longer requires traditional physical contact, this form of actuation removes the need for debounce delay and never triggers unintended clicks, giving you closer control and flawless execution.

74G LIGHTWEIGHT DESIGN
Enjoy faster and smoother control with the lightest wireless gaming mouse in the market. Weighing just 74g, it achieves its weight without compromising on the build strength of its ambidextrous form factor.

70 HOURS OF BATTERY LIFE
Improved wireless power efficiency keeps it running at peak performance for up to 70 continuous hours-charge it just once a week to power 10 hours of daily gameplay.
