Specifications

Overview:

Reliable, functional and reasonable. Choose a monitor that fulfils all your functional needs and with picture quality that you will love. The Samsung LED Monitor Series 3 sports a stylish design with its black high glossy looks and is guaranteed to complement any environment it's in. Experience real colour with mega DCR and get better picture quality with magic upscale.

Features:

Control power consumption, conserve energy
Eco Saving makes saving energy easy. It adjusts the brightness of your Samsung LED Monitor based on how much energy you want to save. And with the choice of three energy saving modes (50%, 25% and Power Saving off), you can really tailor your monitor use to meet your own personal needs. Samsung's commitment to saving energy is designed to help both you and the environment, and with up to 50% saving on consumption, you can really make a positive impact on your eco footprint.

Take the effort out of saving energy and take control with Eco Saving.

Style and functionality in one design
The Samsung LED Monitor Series 3 comes with a stylish design that includes a high glossy look. With its no-frills minimal stylish, it sticks to the basics while being sophisticated. Its unique neck structure saves space and also lends it a structural beauty. You can get all your work done with this sleek monitor.

Upscale your view with better quality and picture
Magic Upscale improves image quality to such a level that you will only receive a better picture. Enjoy enhanced image quality no matter how the original picture quality is. Magic Upscale prevents image degradation when scaling up and gives only brilliant and pristine colours and images. And it also makes images on the monitor appear clearer and sharper than on a note pc. Shine with Samsung LED Monitor Series 3.

Experience real colour with Mega DCR
Mega DCR delivers new levels of colour and picture quality to your viewing experience with images that are real-to-life. Mega DCR's contrast ratio shows blacks at their absolute darkest and pristine whites and other colours at their brightest. You will notice a boost in the contrast level and clearer picture clarity. It is like an explosion of colours that makes other screens seem dull in comparison. Enjoy your content with the professionalism it deserves.

Eco Certification - EPEAT
Upgrade to the greener Samsung LED Business Monitor, which comes with the new Green Certificate from EPEAT. With reduced 'soft power' consumption, this eco-friendly monitor is perfect for business.

Eco Certification - Energy Star
Minimise costs with Samsung's LED Business Monitor, which has been accredited with the Energy Star rating. With less power consumption, this monitor is good for business and the environment.

Monitor compatible with Windows 8
Upgrade to the Samsung LED Monitor Series 7 with 100% compatibility with Windows 8. This Samsung LED Monitor has received a certification logo from Windows 8 that supports the Metro UI feature.
