Buy now from our website for an upgraded home entertainment audio solution.

Overview Summary

LG S30A 2.1 Channel Soundbar with WOW Orchestra

The LG S30A combines a 2.1 channel soundbar with a wireless subwoofer and 140 W output to deliver a fuller audio experience for compatible TVs. Its 3 speaker configuration is supported by AI Sound Pro, which automatically optimizes sound according to the type of content, with Standard, Cinema and Game sound modes also available.

WOW Orchestra allows compatible LG TV speakers and the soundbar to work together to expand the sound field, while WOW Interface allows selected LG TV functions and soundbar settings to be controlled through the TV interface. Bluetooth 5.3, optical input, HDMI ARC and USB connectivity provide practical options for connecting compatible entertainment devices.

Performance tier: Home entertainment

Uses: TV viewing, movies, music, gaming, streaming, sports and general home entertainment

Overview

The LG S30A WOW Orchestra 2.1ch soundbar delivers room-filling, Dolby Atmos-ready audio by combining the soundbar's main drivers with your LG TV's mid/high speakers for richer, immersive playback. AI Sound Pro and dedicated modes (Cinema, Game, Standard) optimize clarity and dialogue while seamless wireless connectivity (Bluetooth 5.3, ARC/CEC) keeps setup simple. WOW Interface lets you control modes, volume, and connections on-screen with a single LG TV remote for instant, integrated operation.

Description

The LG S30A is a 2.1 channel home audio system designed to improve the sound of compatible televisions and entertainment devices. With 140 W of output power and 3 speakers, including a dedicated subwoofer, the system is designed to provide a more engaging audio experience than typical built-in TV speakers.

AI Sound Pro automatically analyzes the type of content and selects an optimized sound mode. Standard, Cinema and Game modes are also available, allowing the audio presentation to be adjusted for different types of entertainment. Dolby Digital, DTS Digital Surround and AAC support provide compatibility with a range of digital audio content.

WOW Orchestra is designed for compatible LG TVs and allows the TV speakers and soundbar speakers to operate together to create a wider sound field. The soundbar provides the main audio while compatible TV speakers can contribute additional mid and high frequencies. Compatibility depends on the LG TV model and software version.

WOW Interface provides integrated control between compatible LG TVs and the soundbar. Selected soundbar functions can be controlled using the LG TV interface and compatible TV remote. LG ThinQ app support also allows compatible smartphones to connect to and control the soundbar.

Connectivity includes 1 x optical input, 1 x HDMI output with ARC support, 1 x USB connection and Bluetooth 5.3 with SBC and AAC codec support. This provides flexible connection options for compatible TVs, mobile devices and other supported equipment.

The main soundbar measures 72 x 6.3 x 8 cm and weighs 1.7 kg, while the subwoofer measures 22 x 34.5 x 22 cm and

weighs 4.5 kg. The compact soundbar design is suitable for placement with a compatible TV setup, while the separate subwoofer adds dedicated low-frequency output to the system.

Features

The LG S30A combines practical connectivity with LG audio technologies to create a straightforward home entertainment sound system.

- 2.1 channel audio: Combines the soundbar and dedicated subwoofer for a fuller home entertainment audio experience.
- 140 W output: Provides the rated total output power of the soundbar system.
- 3 speaker configuration: Uses 3 speakers across the soundbar system.
- AI Sound Pro: Automatically optimizes the sound according to the type of content.
- WOW Orchestra: Allows compatible LG TV speakers and the soundbar to work together for a wider sound field.
- WOW Interface: Provides integrated control of compatible LG TV and soundbar functions through the TV interface.
- Dolby Digital: Supports Dolby Digital audio content.
- DTS Digital Surround: Supports DTS Digital Surround audio content.
- Bluetooth 5.3: Provides wireless audio connectivity with compatible Bluetooth devices.
- LG ThinQ app support: Allows compatible iOS and Android devices to connect to and control the soundbar.
- HDMI ARC: Supports Audio Return Channel through the HDMI connection on compatible equipment.
- Optical connection: Includes 1 x optical input for compatible digital audio equipment.
- USB connection: Includes 1 x USB connection for supported playback functions.
- Sound modes: Includes Standard, Cinema and Game sound modes.

AI-optimized sound. The versatile companion for your LG TV.

Enjoy richer, more immersive 2.1ch sound powered by WOW Orchestra and AI Sound Pro

Elevate your TV sound with a soundbar for an immersive experience

Sound comes from both TV and soundbar, expanding the sound field for a richer, more immersive experience. The soundbar delivers the main audio, while the TV plays mid and high ranges to enhance clarity.

Easy control - operate on screen with your LG TV remote

Experience unparalleled synergy when paired with LG TV. Control your soundbar's mode, volume, connection and other settings directly on screen using your TV remote.

LG TV LG soundbar, where the orchestra begins.

LG TV and LG Soundbar work together to create powerful synergy. WOW Orchestra combines both TV and soundbar speakers for richer, room-filling sound, while WOW Interface lets you control them easily with a single remote. Enjoy clearer dialogue, immersive audio for movies, sports, and gaming, plus seamless wireless connectivity and premium Dolby Atmos performance.

Immersive sound all around

Step into the scene as 140W 2.1ch surround sound with a subwoofer delivers bold, lifelike soundscapes.

AI optimizes sound for every genre

AI analyzes sound genre of the content and delivers through the three optimized modes. Automatically sets the most optimal mode according to analysis.

Delay-free sound, powered by world-first TV video sync control

Ever lost focus due to slight audio lag with a Bluetooth speaker LG TV's industry-first auto-sync technology adjusts on-screen action in real time to match the speaker's audio. Experience wireless sound that feels perfectly in sync with on-screen action.

Control your soundbar through LG ThinQ app on a smartphone
