S505

TOTOLINK S505 5 Port Ethernet Desktop Switch

Product Overview

TOTOLINK S505 5 Port Ethernet Desktop Switch

Specifications

Overview:

The Totolink S505 is a 5-port unmanaged desktop switch. Equipped with a 5-port 10/100Mbps switch with Auto MDI/ MDIX support on each port, the switch can eliminate the need for crossover cables or uplink ports. It can forward and filter packets at full wire-speed for maximum throughput. Each port can be used as general ports or uplink ports and it's easy to plug and play connection. Moreover, it can also be simply plugged into a server, a hub or a switch using straight cable or crossover cable.

Features:

- Supports IEEE 802.3x flow control for full-duplex mode and backwards compatible with half-duplex mode
- Supports MAC address auto-learning and auto-aging
- Plastic case, desktop or wall-mounting design
- LED indicators for monitoring power, link and activity
- External power supply
- Easy plug and play connection

High-tech performance
The fast Ethernet switch, which complies with IEEE 802.3, IEEE 802.3u, IEEE 802.3x standards, provides 5 10/100Mbps auto-negotiation RJ-45 ports with LED indicators to monitor link status and activity. Auto MDI/MDI-X crossover on all ports helps to figure out if the link needs a straight-through or cross-over connection automatically. Besides, these ports detect the network speed and auto-negotiate between 10BASE-T and 100BASE-TX to provide maximum speed possible for each device connected to your network.

Multi-connection and Simple-use
The switch is easy to use for virtually anyone who has no technical knowledge about it. Just plug and play, it is convenient for expanding your wired home network to more device. You can add up to four devices with a simple Ethernet cable without configuration.

Specifications

Product Code	S505
Weight	300 g
Dimensions	13.2 x 7.5 x 2.4 cm
Brand	Totolink
interface	5x10/100Mbps auto-negotiation RJ-45 Ports (Auto MDI/MDIX)
Power Supply	9V DC/0.5A
LED	1x Power, 1x5LINK /Act
