Specifications

Overview

Enjoy superior sound with all your movies, TV shows and more. The Samsung HT-F6500 Smart 3D Home Entertainment System uses valve amp technology to provide amazingly immersive listening. What's more, all your 3D movies are complemented by spectacular 3D sound for greater realism than ever. You can also access a new world of online content and services thanks to Samsung's Smart Hub. And, with AllShare, you can stream music and other content from other devices wirelessly.

Features

- Boost your listening with valve amp technology
- Experience full cinema sound with discreet speakers
- Access the full range of Catch-up TV services

- Enjoy 3D Blu-ray entertainment in stunning Full HD

Hi-Fi sound that's natural and detailed
The Valve Amp in Samsung's Blu-ray Home Entertainment System enriches your audio experience by fully immersing you within your content. The Valve Amp produces natural and enveloping sound, while reducing ambient noise and other unnecessary artifacts so you can hear everything perfectly

3D sound effect for a real sound experience
What better way to enjoy the best in videos and movies than with 3D surround sound? Samsung's Vertical Surround meets DTS processor to create real 3D sound that will make your living room feel like the inside of a cinema. The DTS Neo with its five channel surround sound speakers deliver better sound depth and isolated stereo channels, so it sounds like audio comes from different areas of your room. Trust DTS Neo fusion for great sound

Share pictures and videos with compatible devices
Enjoy wireless access and share your digital content with AllShare. Seamlessly share content across all of your connected devices with Samsung's AllShare. Simultaneously view content from your Samsung mobile device and TV using the screen mirroring technology featured in the Samsung Blu-ray Home Entertainment System. It lets you beam photos, videos and you can even play games using your handset as a controller. Take entertainment to the next level with screen mirroring and content sharing. You can quickly and easily share and enjoy content on your TV with as little fuss as possible

Smart recommendation for your smart device
Now get movies and TV shows tailored to your taste and preference automatically with the S Recommendation feature of the Samsung Blu-ray player. It is convenient and fast and the best way to enjoy all the various contents on your TV. And with the Smart Hub and its enhanced apps and service UI, you'll never have a dull day

High quality surround sound from your TV
Don't let poor sound quality ruin your perfect movie night. With the TV Sound On feature in the Samsung Blu-ray Home Entertainment System, you can hear high quality surround sound from your TV source. All you need to do is to push the 'TV Sound On' hot key on the remote controller and you'll have superior quality surround sound. Your perfect movie night just got better

Set up speakers in the simplest fashion
The simple speaker set up mode allows a quick and easy way of setting up high quality sound in your home. You don't have to worry about placing surround speakers with the simple speaker setup. With intuitive GUI, simply select the position of surround speakers which will automatically enhance the stereo sound. The Samsung Blu-ray home entertainment system makes watching movies even more enjoyable

2HDMI Inputs
All it takes is one cable to connect your Home Entertainment System to your other audio and video sources. The HDMI slots on Samsung Home Entertainment Systems allow you to import all kinds of content without compression including pictures and videos from your digital camcorders and multimedia PCs. Now enjoying it all on a wide HD screen couldn't be easier

Experience the next level of Full HD 3D entertainment
Bring home a more immersive and spectacular 3D experience. With Full HD 3D, your 3D home entertainment will be more exciting and vivid than you had imagined, with powerful features to maximise your enjoyment. Thanks to 3D Auto Contrast, you'll have a crisper image with sharper and more dramatic contrast. Samsung's superior 3D technology uses sophisticated algorithms to minimise image layers and maximise response speed, for more fluid and clear viewing. Make sure you immerse your senses in a new reality of 3D HD

Catch-up Services
Catch up on all the latest TV programmes
Now you never have to miss any of your favourite programmes again. You can watch all the must-see TV shows at your convenience with Catch-up TV services* including ITV Player, BBC iPlayer, the 4oD service from Channel 4, and Demand 5

from Channel 5. They give you access to a world of new comedy, drama, news, documentaries and more. With Samsung Smart Content, you set the TV schedule. It's never been easier to stay up-to-date with the latest entertainment.

Great entertainment on Demand
Enjoy the very latest movies and other entertainment at home - on your own terms. It's all delivered straight to you thanks to Samsung Smart Content. Now you can have easy access to a range of great video on demand services including LOVEFiLM, Netflix and more. From the biggest current blockbusters to indie hidden gems and timeless classics, you will discover a huge library of movies and other content that you can watch at your convenience

Get connected and be social
Now it's even easier to get closer to friends and family from the comfort of your living room. Samsung's Smart Content makes it simple to access online social networks like Facebook and Twitter, so now you can connect, chat and share with ease. With the YouTube app, you can also explore and enjoy a world of great video content including the latest worldwide sensations. Thanks to these social networking services, you can discover a smarter way to be social

Bluetooth
Bluetooth is the new way of connecting device to device wirelessly. Samsung audio system is equipped with Bluetooth, it can connect with compatible portable devices wirelessly. Listen to music using your portable music player or even cellular phone without connecting wires

HDMI (ARC)
HDMI ARC (Audio Return Channel) allows you to easily connect compatible devices to process the TV's audio signal without a separate optical cable to your receiver. Two HDMI inputs keep your AV devices connected with fewer cables for a totally new audio experience.

BD Wise
Let Samsung's BD Wise technology take care of syncing all of your HDMI-connected Samsung devices that deliver dazzling picture quality that brims with bold colours and sharp images. BD Wise automatically shuts off the TV screen when you're only listening to audio through the AV player.
