Wall mount bracket included.

Specifications

Features:

The perfect complement for your curved UHD TV
The Curved Soundbar is the perfect companion for your Samsung Curved UHD TV. The premium slim build boasts an elegant aluminum metal finish that matches the TV's curve while delivering outstandingly immersive sound. *This Soundbar can be compatible with 2014 HU7(except for HU7100 models), HU8 and HU9 series of Samsung UHD curved TVs.

Experience powerful sound
Great TVs require great sound. The Curved Soundbar gives your curved TV an even more powerful sound experience with 320 watts of amazing 8.1Ch surround sound, with extra speakers on each side to enhance the effect.

Enhanced surround sound from a wider range of listening positions
With Surround Sound Expansion, your Samsung audio expands the optimal listening area and elevates the height of the sound to the level of the TV screen, so there is no disconnect like with conventional speakers, just richer surround sound that seems like it's coming straight out of your TV. Now you can enjoy a realistic, lifelike sound experience with truly immersive surround effects.

Connect and share wirelessly for double the fun
Connect your TV and Soundbar easily through Bluetooth to gain better sound with TV Sound Connect. The absence of trailing wires between the Soundbar and TV allows you to showcase the slim and sleek design of both systems, while maintaining a clean look in your living environment. Easily control the Soundbar and TV from a single TV remote. You can simultaneously turn on and manage the volume of your TV and Soundbar with Bluetooth or HDMI connectivity. *TV Sound Connect is all available from 2013 Samsung 3D TVs except LED F6100.

Activate the speakers using your smartphone
Thanks to Bluetooth compatibility, you can use your smartphone to turn your speakers on remotely. Pair the speakers and your smartphone once, and you can quickly and easily power on your speakers by selecting them on your smartphone. It's that

simple. As long as the speakers are plugged into a power source, you can wake it up with just one touch and enjoy high quality audio.
