

SAMSUNG UA65H7000

SAMSUNG 65" SMART Full HD Smart Hub 3D LED TV

Product Overview

SAMSUNG UA65H7000 65" SMART FHD 3D LED TV Smart Hub, Quad Core, CMR800, Micro Dimming Pro, Voice Control, Motion Control Ready, Dual Link Screen, Instant On, Built-in Wifi, Smart Touch Remote, 4x HDMI, 3x USB(4x 3D Glasses included)

Specifications

Overview:

Samsung H7000 LED TV, a minimalist attitude or better viewing. With Quad Core Plus processor, you are now able to enhanced your smat TV experience with faser processing. Featuring Multi-Link Screen, it brings contextual multitasking to the big screen, enabling users to go deeper into their entertainment by splitting the screen.

Features:

Better optimisation for superior picture quality

Enjoy more vivid and dramatic viewing with deeper black and purer white shades with Samsung's advanced segmented dimming technology. Micro Dimming Pro processes the image by dividing it up into twice as many blocks than standard Micro Dimming, delivering even more powerful contrast enhancement that lets you enjoy all your entertainment with images more defined than ever.

Clear Motion Rate minimises motion blur

With Samsung's advanced Clear Motion Rate (CMR) technology, even fast moving scenes are delivered with clarity. A higher CMR means clearer viewing and less motion blur, so you can enjoy action films, sports and other entertainment at their very best. This technology is possible due to an enhanced panel refresh rate, image processor speed and backlight technology.

Great multitasking with Multi-Link Screen (Dual)

Samsung's Multi-Link Screen brings your entertainment experience to a whole new level by providing multiple-screen viewing. You can search for information on the internet about a TV show that you're watching on the same screen, or watch recommended video clips related to the live show you're watching simultaneously.

Be entertained quicker with faster startup

Now you can get straight to your entertainment quicker than ever. Instant On means your Samsung Smart TV boots up in less than 2 seconds. That's much faster than the 2013 Samsung Smart TV, so you can spend less time waiting and more time viewing than ever before. Think about it: all those saved seconds add up. You no longer have to waste time while your TV turns on.

Easier motion control with finger and hand gestures

With Samsung's latest Motion Control, not only can you control your TV using hand movements, you can even use a range of simple finger gestures. Enhanced Motion Control recognises even finger movements, so a finger is all it takes to select the channel or volume level, load apps, scroll webpages and navigate Smart Hub.

All the excitement of the big match with Soccer Mode

Soccer Mode sharply and vividly brings out the green grass of the pitch and all the other colours of the stadium. A powerful multi-surround sound effect also lets you hear all the excitement. Once you turn on Soccer Mode, it will automatically start recording all action on the TV*. And when there's a change in sound, like the roar of the crowd's cheer, or a change in the score, it will know to automatically save the highlights for you to watch later. Play live and recorded matches simultaneously for the ultimate soccer experience at home.

Updated Smart View connects your TV, devices and content

Samsung's latest Smart View 2.0 app makes it easier to enjoy all your content however you like. Using your home network, you can stream live broadcast TV content to your smartphone or tablet and use your mobile device as a TV remote control. Or you can access and enjoy content on your Smart TV from your smartphone or PC through Smart Hub's Multimedia Panel. It's easy to use, so all you have to do is enjoy.

See your mobile content on a large TV screen quickly and easily

With your new Samsung Smart TV, you can enjoy content from mobile devices on a bigger screen quickly and easily. Samsung's enhanced screen mirroring technology makes the process simple, with no need to change the TV source. Just open the notification panel on your mobile device, select the Screen Mirroring icon and select the TV. That's all you need to do to enjoy apps, games and more on a full-size TV.

Easy touchpad and motion control for your TV

Using your TV is more intuitive with the Samsung Smart Control. Using the touchpad you can flip between Smart Hub panels and scroll down webpages, and by pointing the remote, you can utilise Motion Control to move the on-screen cursor to navigate and enter text easily. Useful video control keys also help you watch movies, TV and other content you've downloaded or streamed on demand.

Powerful Quad Core processor for faster performance

Thanks to a powerful Quad Core processor, your Samsung Smart TV offers enhanced performance. You'll notice the difference straight away, with faster multitasking and switching between content and web browsing, as well as smoother interaction. With this extra power, your entertainment experience will be so much more enjoyable, with less waiting and more viewing.

Immersive realism with Samsung Full HD 3D technology

Prepare to see entertainment in a whole new way. Samsung's sophisticated Full HD 3D technology means you can even enjoy 3D movies and TV shows at stunning Full HD resolution. It also enhances your 3D picture quality and cuts out ghost images to give you clearer and more immersive viewing. With such a high level of realism, you've never experience 3D like this before.

More vibrant colours for better images

Using an advanced picture quality improvement algorithm, Samsung's Wide Colour Enhancer Plus drastically improves the quality of any image and uncovers hidden details. Now see colours as they were meant to be seen with Wide Colour Enhancer Plus.

Watch movies from your USB

With ConnectShare Movie, simply plug your USB memory drive or HDD into the TV and instantaneously enjoy movies, photos or music. Now, you can experience a wide variety of content in the comfort of your living room on your TV.
