# SC-A980S

Asus Strix Geforce GTX980 4Gb/4096mb DDR5 256bit Graphics Card

## Product Overview

Asus GTX980-DC2oC-4GD5-Strix, DirectCU 2(ii) with dual fan design + back-sided heatsink + 10mm copper heatpipes, support 0dB silent mode, DIGI+ VRM with 10-phase Super Alloy Power, Geforce GTX980, 28nm, 3-way SLi support, Pci-E 3.0 16x, support Adaptive Vertical Sync, support 4xdisplay, FXAA+TXAA; 4Gb/4096mb 256bit DDR5, RoPs: 64, 224Gb/sec memory transfer, 2048 cuda cores (pixel shader engine + vertex pipelines), 4612GFLoPS, 144GTexels/Sec, 128x TMUs, core clock: 1178/1279mhz; memory: 7010mhz, 1x dvi+ 1x HDMi +3x DP

## Specifications

**Overview:**

ASUS Strix GTX 980 gaming graphics card is factory-overclocked at 1279 MHz and packed with exclusive ASUS technologies, including DirectCU II to deliver cooler, quieter, and faster performance for incredible action gaming experiences. Strix GTX 980 also features 0dB fan technology to let gamers enjoy total silence during light gameplay as well as Blu-ray movie playback free from distracting background noise. Strix GTX 980 features exclusive ASUS DIGI+ VRM with 10 -phase Super Alloy Power components for enhanced durability and cooling, and GPU Tweak for overclocking and online streaming.

**Features:**

**DirectCU II with 0dB Fan Technology 30% cooler. Silent gaming.**
Exclusive DirectCU II cooling technology outperforms reference designs with an exclusive 10mm heatpipe that transports 40% more heat away from the GPU - a first for the industry! The design also includes 220%-larger heat-dissipation: this means performance that's 30% and three-times (3X) quieter than reference for ultra-stable hardcore gaming with very low noise. And Strix ups the ante still further with 0dB fan technology that lets you enjoy games like League of Legends® and StarCraft® in complete silence - because the fan stops completely when the GPU temperature remains below a set level.

**DIGI+ VRM with Super Alloy Power 30% less power noise and 2.5X greater durability**
Acclaimed DIGI+ VRM has been applied via a 10-phase power design that uses digital voltage regulators to minimize power noise by 30%, enhance power efficiency by 15%, widen voltage modulation tolerance, and improve overall stability and longevity by 2.5 times over reference.

**GPU Tweak with Streaming Real-time intuitive graphics tuning**

- Shows detailed specs and actual card status with GPU-Z

- Monitoring widget provides real-time detailed multi-parameter info
- Automatically checks and updates drivers and BIOS versions

**Stream online instantly**
GPU Tweak streaming tool that lets you share on-screen action in real time - so others can watch live as games are played. It's even possible to add to the streaming window scrolling text, pictures and webcam images.

| Specifications | |
|---|---|
| **Product Code** | SC-A980S |
| **Graphics Engine** | NVIDIA GeForce GTX 980 |
| **Bus Standard** | PCI Express 3.0 |
| **Video Memory** | GDDR5 4GB |
| **Engine Clock** | GPU Boost Clock : 1279 MHz |
| | GPU Base Clock : 1178 MHz |
| **CUDA Core** | 2048 |
| **Memory Clock** | 7010 MHz ( MHz GDDR5 ) |
| **Memory Interface** | 256-bit |
| **Interface** | DVI Output : Yes x 1 (DVI-I) |
| | HDMI Output : Yes x 1 (HDMI 2.0) |
| | Display Port : Yes x 3 (Regular DP) |
| | HDCP Support : Yes |
| **Power Consumption** | up to 300Wadditional 6+8 pin PCIe power required |
| **Accessories** | 1 x Power cable |
| **Software** | ASUS GPU Tweak & Driver |
| **Dimensions** | 11.36 " x 5.3 " x 1.61 " Inch |
| | 28.86 x 13.44 x4.09 Centimeter |
