Product Specification Sheet

SC-G960oC4G

Gigabyte NVIDIA GeForce GTX 960 OC Edition 4Gb/4096mb DDR5 128bit Graphics Card

Product Overview

Gigabyte GV-N960oC-4GD, with WindForce2x - parallel-inclined dual fan design with HDT heatpipe (Heatpipe Direct Touch), Ultra Durable 2 (with Low RDS(on) MOSFET + Low Power Loss - Ferrite Core Choke All-Solid Capacitor), gold plated HDMi connector, 28nm, 3-way SLi support, PCI-E 3.0 16x, support Adaptive Vertical Sync, support 4xdisplay, FXAA+TXAA; 4Gb/4096mb DDR5 128bit, RoPs: 32, 112Gb/sec memory transfer, 1024 cuda cores (pixel shader engine + vertex pipelines), 2308GFLoPS, 72GTexels/Sec, 64x TMUs, core clock: 1216/1279mhz; memory: 7010mhz, 2x dvi+ 1x HDMi +DP

Specifications

Features:

Flex Display technology
GIGABYTE Flex display technology(patent-pending) can automatically detect any connected monitors and achieve multi-display gaming up to 4 monitors at the same time by using various output groups. Users could enjoy the best gaming experience in ultra HD resolution with extended flexibility in arranging monitor configurations and making future system upgrade extremely easy.

Lower GPU Temperature
Ultra Durable VGA board provides dramatic cooling effect on lowering both GPU and memory temperature by doubling the copper inner layer of PCB.

Better Overclocking Capability
Ultra Durable VGA board reduces voltage ripples in normal and transient state, thus effectively lowers noises and ensures higher overclocking capability.

Decrease Power Switching Loss
Ultra Durable VGA board allows more bandwidth for electron passage and reduces circuit impedance. The less circuit impedance, the more stable flow of current and can effectively improve power efficiency.

OC GURU II
Brand-new intuitive user interface helps you easily modify important settings and directly update driver and BIOS. Clock speeds, voltage, fan performance, and OSD setting can be monitored and tuned in real-time according to your own preference.

Specifications:

Specifications	
Product Code	SC-G960oC4G
Chipset	GeForce GTX 960
Core Clock	Base / Boost clock:1190 / 1253 MHz
Memory Clock	7010 MHz
Process Technology	28 nm
Memory Size	4 GB
Memory Bus	128 bit
Card Bus	PCI-E 3.0
Memory Type	GDDR5
DirectX	12
OpenGL	4.4
PCB Form	ATX
Digital max resolution	4096 X 2160
Analog max resolution	2048 x 1536
Multi-view	4
I/O	Dual-link DVI-I*1/DVI-D*1/HDMI*1/Display Port*1
Card size	H=42mm, L=181mm, W=136mm (include bracket)
Power requirement	400W (with one 6-pin external power connector)
