SC-JCA174

J5 create JCA174 USB-C to Dual HDMI & VGA Multi-Display Adapter

Product Overview

J5 create JCA174 type-C USB3.1 to HDMI or VGA (d-sub) converter/cable (female, work with existing cable), ideal for desktop or notebook/new mac book, support up to Full HD@VGA (1920x1080@60Hz) or 4K HDMI (3840x2160@60Hz), supports mirror and extended modes (when connected to both the VGA and HDMi, only mirror mode is supported), 38x75x15mm + 150mm cable - USB-powered

Specifications

Overview:

The JCA174 is a lightweight and portable adapter that connects a USB Type-C™ to an HDMI™ and VGA monitor or projector through an HDMI™ and a VGA cable. It supports HDMI™ resolutions up to 4K (3840 x 2160 @ 60 Hz) and VGA resolutions up to 1080P (1920 x 1080 @ 60 Hz) when they are used separately, which allows you to capture every detail of an image and gives you audio output to your external display screen through HDMI™. Both Mirror mode and Extended mode are supported when the HDMI™ or VGA port is used separately. When the two output ports are used simultaneously, the maximum resolution of both of them together is 1080P @ 60 Hz and only Mirror mode is supported.

Plug-and-play, no drivers or software required. No external power supply needed. You can use it anytime, anywhere. 2-in-1 ports enable you to add devices such as an external monitor, TV or projector simultaneously for extending your HDMI™ or VGA input terminals. Portable for easy carrying when traveling. Great for use in the office, home theater, teaching, etc.

Features:

- Dual screen display
- Supports HDMI™ resolutions up to 4K at 3840 x 2160 @ 60 Hz; VGA resolutions up to 1920 x 1200 or 1080P @ 60 Hz. Supports Mirror and Extended modes.
- When connected to both the VGA and HDMI™, only Mirror mode is supported with a resolution up to 1920 x 1080 @ 60Hz; Extended mode is not supported.
- The HDMI™ port transfers audio and video, the VGA port transfers video.
- No software/drivers required

System Requirements:

- Available DisplayPort™ Alt Mode over USB-C™ port
