J5-Create JVAW60 ScreenCast Mini Duo Wireless Display Adapter for Mobile Devices

Product Overview

J5-Create JVAW60 ScreenCast Mini Duo Wireless Display Adapter for Mobile Devices; USB-C transmitter; HDMI receiver; Full HD 1920 x 1080 at 60Hz; AirPlay; Miracast; 2.4GHz and 5GHz wireless; 5V/1.5A pass-through charging; portrait mode; up to 10-15m range; Windows, macOS, iOS, iPadOS and Android compatibility; white/orange

Specifications

About this product

The J5Create JVAW60 ScreenCast Mini Duo Wireless Display Adapter lets you mirror content from compatible smartphones, tablets and laptops to an HDMI display in Full HD 1080p at 60Hz. Featuring USB-C connectivity, AirPlay and Miracast support, dual-band wireless technology, portrait mode and 7.5W pass-through charging, this compact screen casting solution is ideal for streaming videos, sharing photos and presenting content without a complicated setup. Compatible with selected iOS, Android, Windows and macOS devices, the JVAW60 is a convenient way to enjoy mobile content on a larger screen. Buy now for convenient wireless screen sharing in South Africa.

Overview Summary

J5Create JVAW60 ScreenCast Mini Duo Wireless Display Adapter

The J5Create JVAW60 is a compact wireless display adapter designed to mirror content from compatible mobile devices and computers to an external HDMI display. It supports Full HD output up to 1920 x 1080 at 60Hz, providing a practical solution for watching videos, displaying photographs, sharing presentations and viewing compatible mobile applications on a television or monitor.

With USB-C connectivity, AirPlay and Miracast compatibility, the ScreenCast Mini Duo supports a range of compatible operating systems. Its dual-band wireless technology supports 2.4GHz and 5GHz connectivity, while portrait mode makes it suitable for displaying vertical mobile content. The integrated USB-C pass-through charging feature supports 5V/1.5A charging, helping keep a compatible mobile device powered during use. Setup does not require a dedicated casting app or an existing Wi-Fi network.

Performance tier: Full HD wireless display and screen mirroring

Uses: Wireless screen mirroring, video streaming, photo sharing, business presentations, mobile app display, portrait video playback, compatible laptop display sharing

Overview

Elevate your viewing experience with the ScreenCast Wireless Display Adapter-the ultimate way to share content from your phone, tablet, or laptop on a big screen. Say goodbye to tangled cables and complicated setups. The ScreenCast's ultra-compact design and easy-to-use USB-C(RegTM) transmitter make it a seamless solution. In seconds, you can stream movies, showcase presentations, or share vacation photos in stunning detail. It works flawlessly with the devices you already own, including Windows(RegTM), macOS(RegTM), iOS(RegTM), iPadOS(RegTM), and Android(TM) operating systems, thanks to built-in support for Miracast(TM) and AirPlay(RegTM).

The integrated USB-C(RegTM) charging port ensures your connection is always on, so you can share for as long as you want. From professional presentations to viral videos, the ScreenCast handles it all. It even supports portrait mode, making it ideal for sharing vertical apps like TikTok(RegTM) and Facebook(RegTM) Reels. Whether you're at home, traveling, or in the office, the ScreenCast Wireless Display Adapter is the smart, simple way to connect and share.

Description

The J5Create JVAW60 ScreenCast Mini Duo Wireless Display Adapter provides a convenient way to share content from a compatible mobile device or computer on a larger screen. It uses a USB-C transmitter and an HDMI receiver to establish a wireless display connection, reducing the need for a direct video cable between the source device and the external display.

Designed for home entertainment, office presentations and everyday content sharing, the adapter supports Full HD video output at 1920 x 1080 and 60Hz. You can use it to display compatible videos, photographs, presentations and applications on an HDMI-equipped television or monitor. AirPlay and Miracast support enables screen mirroring from compatible devices,

while the USB-C transmitter is designed for supported devices with DisplayPort Alternate Mode or the required wireless display functionality.

The compact transmitter is suitable for portable use at home, in the office or while travelling. Its portrait mode is useful for compatible vertical content, including short-form videos and social media applications. Dual-band wireless connectivity supports 2.4GHz and 5GHz operation, with a stated wireless range of up to 10 to 15 metres under suitable conditions.

The USB-C transmitter includes 5V/1.5A pass-through charging to help maintain power while casting. The receiver connects to an HDMI display and requires USB power. The adapter is designed for straightforward setup without a dedicated casting app or an existing Wi-Fi network. Device compatibility depends on the operating system, wireless casting support and USB-C video capabilities of the source device.

Features

- Wireless screen mirroring: Display compatible smartphone, tablet and laptop content on an external HDMI television or monitor.
- Full HD video output: Supports output resolutions up to 1920 x 1080 at 60Hz for detailed viewing.
- USB-C transmitter: Connects to compatible USB-C devices, including supported phones, tablets and computers.
- AirPlay and Miracast support: Enables wireless screen mirroring with compatible Apple and Android devices and supported computers.
- Dual-band wireless connectivity: Supports 2.4GHz and 5GHz wireless operation for flexible connection options.
- Portrait mode: Supports vertical content from compatible applications, making it useful for short-form videos and social media feeds.
- USB-C pass-through charging: Supports 5V/1.5A charging through the transmitter to help keep a compatible device powered during use.
- DRM and HDCP support: Supports protected streaming content when casting through the USB-C transmitter, subject to the streaming service and source device.
- Compact design: Lightweight components make the adapter convenient to carry between home, work and travel locations.
- Simple setup: Designed to operate without a dedicated casting app or an existing Wi-Fi network.
- Wireless transmission range: Supports a stated range of up to 10 to 15 metres, depending on the surrounding environment and wireless conditions.
- Broad operating system support: Compatible with selected Windows, macOS, iOS, iPadOS and Android devices that meet the required system and connection specifications.

Stream Wirelessly with Ease
Wirelessly project content from your phone, tablet, or laptop to your HDTV with plug-and-play convenience - no messy cables.

Full HD Video Output
This ensures a smooth, low-latency 1080p@60Hz big-screen experience.

Connect One Device to All Your Streaming Services
With the support of DRM technology and HDCP compliance, you can enjoy countless entertainment options on your favorite streaming applications. (DRM/HDCP compliance is only available for casting with the USB-C(RegTM) transmitter)

Supports AirPlay(RegTM)/Miracast(RegTM) For Mobile Devices
Offering universal compatibility with your mobile devices via AirPlay(RegTM)/Miracast(RegTM), this is the most complete and hassle-free wireless display system on the market.

Supports Portrait Mode
Portrait Mode is perfect for vertical apps such as TikTok(RegTM) or Facebook(RegTM) Reels(RegTM).

5G + 2.4G Dual Band Smooth Streaming
Enjoy stable, low-latency performance.

Long Range Transmission
Wireless transmission enables seamless device connectivity, freeing you from a single location and simplifying tasks such as live streaming, presentation, or working across large areas.

7.5W USB Pass-Through Charging
This feature keeps your phone powered while you watch videos.

System Requirements

- Windows(RegTM) 10 or later
- Android(TM) 9.0 or later
- macOS(RegTM) 10.15 or later with AirPlay(RegTM) support
- iOS(RegTM) 17 or later
- iPadOS(RegTM) 13 or later

What's in the Box

- 1 x J5Create JVAW60 ScreenCast Mini Duo Wireless Display Adapter for Mobile Devices
- 1 x USB Type-A extension cable, approximately 600mm
- 1 x Quick Installation Guide

Specifications	
Product Code	SC-JVAW60
Hardware	
Host connector	HDMI male
Infared	N/A
LED indicators	N/A
Ports	N/A
Power source	USB micro-B to USB Type-A male
Performance	
Audio channel	2.1 via HDMI
ESD protection	N/A
HDCP compliance	N/A
HDMI compliance	HDMI v1.4
Infared return frequency	N/A
OVP protection	N/A
RF output power	N/A
Security - encryption	WPA2
Supported resolution - output	3840 x 2160, 1920 x 1080, 1280 x 720

Physical Specifications	
Cable length	39 in. (100 cm)
Color	White
Connector type	Plastic
Operating humidity	< 85% non-condensing
Operating temperature	+14 to +104 deg F (-10 to +40 deg C)
Product depth	0.43 in. (11 mm)
Product height	3.74 in. (95 mm)
Product weight	2.8 oz (79.5 g)
Product width	1.25 in. (32 mm)
Storage humidity	< 85% non-condensing
Storage temperature	-4 to +122 deg F (-20 to +50 deg C)
Wireless Protocols	
Antenna type	External antenna
Channel width	20 MHz, 40 MHz
Frequency	2.4 GHz, 5 GHz
Range	Up to 10-15 meters
Standard	IEEE 802.11ac

FAQ

What does the J5Create JVAW60 ScreenCast Mini Duo do?

It wirelessly mirrors compatible mobile device or computer content to an external HDMI television or monitor, supporting Full HD output up to 1080p at 60Hz.

Is the JVAW60 compatible with iPhone and Android phones?

It supports compatible iOS and Android devices. iPhones and other devices must meet the required operating system and connection requirements. The USB-C transmitter requires suitable USB-C video or display functionality where applicable.

Does the J5Create JVAW60 support laptops?

Yes, it supports compatible Windows and macOS computers. Confirm that the laptop meets the operating system and wireless display requirements before purchasing.

Does the JVAW60 need Wi-Fi or a separate app?

The adapter is designed to cast without an existing Wi-Fi network or a dedicated casting app. The source device must still support a compatible casting method.

What resolution does the ScreenCast Mini Duo support?

The maximum supported output resolution is 1920 x 1080 at 60Hz. It also supports 1280 x 720 and 720 x 480 output resolutions.

Can I charge my phone while using the JVAW60?

The USB-C transmitter supports 5V/1.5A pass-through charging. Use a suitable power source and confirm that your device supports the required connection arrangement.

Can I use the JVAW60 for presentations?

Yes, it can display compatible presentations, documents, photographs and applications on an HDMI-equipped display, making it useful for meetings, lessons and home office use.

Does the JVAW60 support vertical videos?

Yes, portrait mode supports vertical content from compatible applications, including short-form video and social media feeds.

Is the JVAW60 compatible with Nintendo Switch?

The adapter supports selected Nintendo Switch configurations. When using the original Nintendo Switch, the transmitter must be connected to a 5V USB power adapter. It is not compatible with Nintendo Switch 2.

What is included with the J5Create JVAW60?

The package includes the JVAW60 wireless display adapter, a USB Type-A extension cable and a Quick Installation Guide.

What is the wireless range of the JVAW60?

The stated wireless transmission range is up to 10 to 15 metres. Actual performance can vary depending on obstacles, interference and the surrounding wireless environment.
