

SDC4/8GB

Kingston 8GB Micro SD HC Card Class 4

Product Overview

Kingston Flash MicroSD memory 8GB

Specifications

Overview:

In capacities ranging from 4 - 32GB, microSDHC cards offer higher storage capacities for more music, more videos, more pictures, more games - more of everything you need in today's mobile world. The microSDHC card allows you to maximize today's revolutionary mobile devices. Kingston's microSDHC cards use the new speed "class" rating that guarantee a minimum data transfer rate for optimum performance with devices that use microSDHC.

Identical in physical size to today's standard microSD card, the microSDHC cards are designed to comply with SD Specification Version 2.00 and are only recognized by microSDHC host devices. They can be used as full-size SDHC cards when used with the included adapter. To ensure compatibility, look for the microSDHC or SDHC logo on host devices (e.g. phones, PDAs, and cameras).

Features:

- Compliant - with the SD Specification Version 2.00 (Class 4) and with the SD Specification Version 3.00 (Class 10)
- Versatile - when combined with the adapter, can be used as a full-size SDHC card
