Performance tier: Entry-level portable storage

Uses: File transfers, photo storage, video storage, device backups, freeing up phone space, moving files between compatible Apple devices

Overview:

SanDisk Phone Drive 128GB USB 3.2 Gen 1 Type-C for iPhone
Picture a world where your photos and videos seamlessly interconnect across your iPhone, iPad, and Mac products.

- Model Number: SDIXD0N-128G-GN6NE
- SanDisk Phone Drive for iPhone - 128GB

Description:

The SanDisk Phone Drive 128GB is a convenient USB Type-C storage solution designed to make transferring and backing up photos, videos and other files between compatible Apple devices easier. With USB 3.2 Gen 1 connectivity and reliable transfer performance, the drive provides a practical way to move files between an iPhone, iPad Pro, Mac and other USB Type-C devices without relying on an internet connection.

Its compact design and Metallic Sky finish make it both useful and stylish, while the SanDisk mobile app provides a simple way to manage backups and free up storage on your device. For users who regularly capture photos and videos, this 128GB SanDisk Phone Drive offers additional space without requiring cloud storage.

Features:

Easy File Transfer Between Apple Devices
The SanDisk Phone Drive is designed for convenient file movement between compatible iPhone, iPad Pro, Mac and USB Type-C devices. Its dual-connector design makes it easier to transfer photos, videos and other important files between devices without needing a separate adapter or online storage service.

The drive is particularly useful when your iPhone is running low on storage. Simply connect the drive and move files to free up space for new photos, videos, apps and games.

128GB Portable Storage for iPhone
With 128GB of storage capacity, this SanDisk USB Type-C flash drive provides extra room for personal files, media and other digital content. It is a practical option for users who need additional storage while travelling, working or managing large collections of photos and videos.

There is no need for an internet connection when transferring files directly between compatible devices, helping you manage your data wherever you are.

USB 3.2 Gen 1 Performance
USB 3.2 Gen 1 connectivity provides reliable data transfer performance for everyday file management. The drive is rated for sequential read speeds of up to 90MB/s and sequential write speeds of up to 10MB/s, making it suitable for transferring photos, videos and other files.

Key technical details include:

- Capacity: 128GB
- Interface: USB 3.2 Gen 1 Type-C
- Sequential read performance: Up to 90MB/s
- Sequential write performance: Up to 10MB/s
- Model number: SDIXD0N-128G-GN6NE
- Part number / SKU: SDIXD0N-128G-GN6NE

Simple Backup and Storage Management
The SanDisk mobile app can be used to help back up important content and manage files stored on the drive. This gives you a straightforward way to preserve photos and videos while making additional space available on your mobile device.

For anyone who frequently takes photos or records video, having portable storage can reduce the need to constantly delete older content just to make room for new files.

Designed for USB Type-C Devices
The dual-connector design allows the SanDisk Phone Drive to work across compatible Apple and USB Type-C devices. This makes it useful for moving content between an iPhone, iPad Pro, Mac and other compatible Type-C equipment.

The drive combines portability with a durable-looking Metallic Sky finish, making it a practical accessory for everyday mobile storage and file transfers.

Help Protect Important Files
Encryption and recovery software are included to help provide additional protection for your digital content. This can be useful when storing personal photos, videos, documents and other important files on portable storage.

A Practical iPhone Storage Solution
The SanDisk Phone Drive 128GB is suited to users who need a simple way to expand available storage and transfer files between compatible devices. Its USB 3.2 Gen 1 interface, 128GB capacity, portable design and Type-C connectivity make it a useful choice for everyday photo, video and file management.

If you need additional storage for an iPhone or another compatible USB Type-C device, the SanDisk Phone Drive offers a convenient way to keep your files accessible without depending on an internet connection.
