SanDisk Phone Drive 64GB USB 3.2 Gen 1 Type-C - Arctic White

Product Overview

SanDisk Phone Drive 64GB USB 3.2 Gen 1 Type-C - Arctic White, Up to 150MB/s Sequential read Performance, SDIXS0N-064G-GN6NE

Specifications

Overview Summary:

The SanDisk Phone Drive 64GB USB-C is a compact portable storage solution for compatible USB Type-C iPhones, iPads, MacBooks and other devices. It provides 64GB of additional space for photos, videos and important files, with USB 3.2 Gen 1 connectivity and read speeds of up to 150MB/s.

Transfer and manage your files conveniently while keeping your digital content accessible across compatible devices. The compact Arctic White design is easy to carry, making it suitable for everyday storage and file transfers. Buy now or shop now for convenient USB-C storage.

Performance tier: Everyday

Uses:iPhone storage expansion, iPad storage expansion, Mac storage, photo transfer, video transfer, file backup, portable file storage

Overview:

SanDisk Phone Drive 64GB USB-C Flash Drive - Arctic White
The SanDisk Phone Drive 64GB USB-C flash drive provides a convenient way to expand storage and move photos, videos and other files between compatible USB Type-C devices. Finished in Arctic White, this compact drive is designed for use with compatible iPhone, iPad and Mac devices, making it a practical choice for users who need extra portable storage without relying entirely on cloud services.

Description:

The SanDisk Phone Drive combines 64GB of portable storage with a USB 3.2 Gen 1 interface for fast and convenient file transfers. With sequential read speeds of up to 150MB/s, it can help you move large photo and video files more efficiently between compatible USB Type-C devices.

Designed around the modern USB-C ecosystem, the drive can be connected to compatible iPhones, iPads, MacBooks and other USB Type-C devices. It is particularly useful for photographers, content creators and everyday users who need additional space for high-resolution photos, videos and important files.

The compact design makes the SanDisk Phone Drive easy to carry, while its premium metal exterior and Arctic White finish complement modern mobile devices. The included SanDisk app for iPhone and iPad also provides convenient options for automatically backing up and managing files.

Features:

Portable Storage for USB Type-C Devices
The 64GB capacity gives compatible devices additional storage for photos, videos, documents and other digital content. Instead of constantly deleting files to free up space, you can transfer content to the drive and keep your important memories and files accessible.

It is suitable for moving content between compatible USB-C devices, including:

- Compatible USB Type-C iPhones
- Compatible iPad models
- MacBook and Mac computers with USB Type-C

- Other compatible USB Type-C devices

Fast USB 3.2 Gen 1 File Transfers
Using USB 3.2 Gen 1 connectivity, the SanDisk Phone Drive delivers sequential read performance of up to 150MB/s. This makes transferring photos, videos and other large files faster and more convenient than using slower storage interfaces.

Actual transfer speeds can vary depending on the host device, file sizes, operating system and other system conditions.

Easy Photo and Video Management
The SanDisk Phone Drive is designed to make it easier to manage content across compatible devices. With the SanDisk app for iPhone and iPad, users can automatically back up and manage files, helping keep important photos and videos organised and available when needed.

The drive is especially useful when recording or storing large amounts of high-resolution content and you need additional space without replacing your device.

Compact Arctic White Design
The Arctic White finish gives the drive a clean, modern appearance, while the premium metal exterior provides a durable feel in a compact form. Its portable design makes it easy to keep with your mobile devices, laptop or other everyday technology.

Key Technical Details

- Brand: SanDisk
- Product: Phone Drive with USB-C
- Capacity: 64GB
- Interface: USB 3.2 Gen 1
- Connector: USB Type-C
- Sequential read performance: Up to 150MB/s
- Colour: Arctic White
