Specifications

Overview:

Hackers & attackers are always on the prowl. So, when you connect - we protect… helping you to defend your digital life against a whole host of digital dangers. You can surf, socialize & shop - on PC, Mac & mobile* - while Kaspersky Internet Security helps protect you from infections, ransomware, phishing & identity theft.

Features:

It SECURES - with award-winning protection
Surf, socialize, shop and stream… while we help protect you from hackers, attackers, infections, ransomware, spam, identity theft and banner adverts*.

It SUPPORTS - PC, Mac & mobile
Whatever combination of computers and Android devices you use, we help you stay safe… and if your phone or tablet goes missing, remote controls will help you to lock it, wipe it and find it.

It DEFENDS - your privacy & more
Phishing, tracking and spying can do a lot more than spoil your day. That's why we help you to protect your personal data, prevent your online behavior being tracked** and stop your webcam being used to spy on you**… plus a new, patented technology helps to prevent audio surveillance - by blocking unauthorized access to microphone data*. You can also add security code locks for apps on your Android mobile.

It CONNECTS - more securely
Whenever you go online - even if you use public Wi-Fi - we help protect your communications, identity and data. So you can surf, socialize and stream... while we help safeguard your privacy.

It PROTECTS - online shopping & banking
We add extra layers of security… to help prevent thieves stealing your money. When you click to access one of your favorite shopping or banking websites, our unique Safe Money technology checks that the website is secure, ensures you're not being tricked by a fake site and then opens the site in a special, protected mode.

It SAFEGUARDS - your children online
Because there are so many online dangers for kids, we've made it easier for you to guide your children to safety. You can block inappropriate websites & content and manage how your kids use social networks.

It PERFORMS - so security won't get in your way
We've combined security & efficiency - so all your devices can keep performing as they were designed to… and you can do more of the things you really want to do.

It SIMPLIFIES - so you can get on with your busy life
It's easy to manage your security - from anywhere you can get online - and expert technical support is only a click away.
