Specifications

Overview:

When you go online shopping or banking - we protect your money & account details… when you socialize - we safeguard your identity… when you surf - we prevent attacks… when you download or stream - we block infected files. Whatever you do in your digital life - our premium protection is here to help you protect it all.

Features:

Award-winning security
Our innovative security helps protect you from viruses, ransomware, spyware, phishing, dangerous websites, spam, banner adverts* and more. *For PC only.

PC, Mac & mobile
Whether you're on your laptop, desktop or Android mobile, we help you stay safe. And, if your Android tablet or phone is lost or stolen we help you lock it, wipe it & find it.

Privacy protection
Whenever you go online, we help protect your personal data, communications & identity - plus we prevent trackers watching what you do online** and we stop your webcam being used to spy on you**. **For PC & Mac only.

Secured connection
Now you can access more websites and content - including sites that are outside your region. And, when you connect to the Internet - even if you're on public Wi-Fi - if your connection is unsafe, our technologies automatically guard against threats***. ***Please note you're able to protect 200MB of traffic per day, per device - or 300MB per day, per device if you register the service to your My Kaspersky account. The service automatically connects you to a server that's fast and close to the territory you're in. Unlimited traffic and the option to select the territory of the server you connect to is available for an additional charge.

Safe shopping
Everybody wants to shop & bank online - without cybercriminals stealing their money. So, whenever you visit a bank's or retailer's website, we automatically add extra layers of security**. **For PC & Mac only.

Security for kids
Award-winning Parental Control features make it easy to protect your kids when they go online. You can manage their app downloads, block the disclosure of personal information and prevent access to games & inappropriate web content**. **For PC and Mac only.

Protection that performs
You want your devices to perform as they're designed to - and so do we. That's why our security works 'behind the scenes', without any fuss.

Easy-to-use security
Your security shouldn't get in your way… so we've developed premium protection that's simple to set up and easy to run - on all your devices.

System Requirements:

For all devices

- Internet connection required - for product activation & updates and for access to some features
- Webcam Protection technology only runs on PCs & Mac computers. The feature is available for a range of compatible web-cameras. For the full list of compatible devices, please visit: support.kaspersky.com/14108 (for PCs) and support.kaspersky.com/14248 (for Mac computers)
