Specifications

Overview:

The S705 is our executive-level IP phone designed for users who are frequently on the phone and require access to advanced features, line support and usability options. Designed to work exclusively with PBXact phone systems, the S705 supports 6 Session Initiation Protocol (SIP) accounts, WiFi, full duplex speakerphone and has a rich 4.3 inch full color display. Zero-Touch auto-provisioning makes it so easy to setup, all you need to do is plug the phone into an internet connection, in or out of the corporate office location.

Built-in PhoneApps enables users to control complex features directly from the phones display and programmable buttons. This allows users to have full control of their phone system right from their fingertips. Other features such as built-in VPN and and hot desking makes the S705 great value.

Features:

Zero-Touch Auto-Provisioning with - PBXact Phone Systems

Plug in the phone into any internet connection, local or remote and it will find the phone system and autoprovisioning, using Sangomas redirection service.

Phone Apps

PhoneApps are a bundle of advanced applications, which install directly onto your IP phone, converting all your complicated features into easy-to-use visual applications, which you control, directly from the phones display!

Included EndPoint Manager

EndPoint Manager lets users control global settings, program their phone keys, map extensions, upload images, download new firmware, and much more.

Built-in VPN

Connect remote phones to the corporate office securely using built-in VPN. Perfect for remote workers to be able to access all their tools from the office without compromising security.

Wifi and Bluetooth

Setup an entire office using WiFi, eliminating the requirement of cabling. Bluetooth support also allows users to connect their

bluetooth headsets for a true wire-free experience.

Hot Desking

For users without a permanent work desk, log in to any phone with your extension and password, and all your settings follow you instantly. Perfect for call-center agents, and other roaming workers. Its as if you never left your desk at all!

PoE Support

All Sangoma IP phones can be powered by the same ethernet cable plugged into it, without requiring the power adaptor. This allows you to place the phone wherever you want without searching for a power socket.

Localization

All S-Series phones support global language support.
