SJ9

LG SJ9 5.1.2 ch High Resolution Audio Sound Bar

Product Overview

LG SJ9 5.1.2 ch High Resolution Audio Sound Bar, 500W, 5.1.2ch, Dolby Atmos, TV Sound Sync, Optical, HDMI 1 IN 1 OUT, Wi-Fi, Bluetooth, Chrome Cast

Specifications

Features:

Dolby Atmos
Bring the cinema experience home! With Dolby Atmos, sounds can move anywhere in three-dimensional space, including above the listener for the ultimate in surround audio.

High Resolution Audio
Digital music has gone audiophile, with higher sampling rates and bit depth which can contribute to a more accurate, more enjoyable listening experience. This CTA-certified sound bar can play back lossless stereo audio at up to 24-bit/192kHz quality.

Chromecast Built-In
Stream tunes wirelessly to the sound bar from popular apps* like Pandora and Google Play Music. Chromecast works seamlessly with a smartphone or tablet, iPhone, iPad, Mac or Windows laptop or Chromebook.

4K Pass-Through
4K resolution is the new video quality standard for streaming, disc and beyond. This sound bar supports HDCP 2.2 so it can deliver the full home cinema experience with no loss of 4K image quality.

24-bit Upsampling
24-bit sound contains more data than lower-quality audio, and is the standard for high-resolution music. This feature converts lower-resolution audio to a high-resolution 24-bit format for a more premium listening experience.

Wireless Connectivity
Wirelessly stream music directly from your Smartphone or other compatible device for a seamless listening experience.

LG Sound Sync
Enhance the home cinema experience without the clutter of unnecessary cables. LG Sound Sync technology links compatible

LG televisions to the sound bar wirelessly, using Bluetooth.
