Speedlink LEDOS Gaming Mouse Red

## Product Overview

Speedlink LEDOS Gaming Mouse Red

## Specifications

**Overview:**

In the heat of battle, quick reflexes and perseverance are called for. To stop having to continually press your mouse button while you're in a gun fight with your enemies, the LEDOS Gaming Mouse features an additional rapid-fire button which takes care of this for you by automatically performing a double-click. Strafe your enemies with a burst shot as soon as you press the button. Achieve the ultimate in precision using the sniper button. Press it, and the sensor resolution reduces automatically to 500dpi - temporarily slowing down your mouse-pointer speed and enabling you to hone in on your target with deadly precision. It´s an invaluable advantage for covert ops and times when maximum precision is called for.

**Features:**

- Gaming mouse with red LED illumination
- Ultimate sniper function
- High-rate rapid-fire button
- Fully rubberised finish
- Precise optical sensor with adjustable resolution from 500 to 3, 000dpi
- DPI switch for rapid toggling between resolutions
- Symmetrical design for left and right handers
- Flexible USB cable with hard-wearing sheath (1.8m)
