Galaxy Fit2 - SM-R220NZRAXFA

- Take a step towards a stress-free life
- Log your sleep patterns for a better rest
- Up to 21 days of battery life

Features:

Focus on your health with Galaxy Fit2

Better visibility to keep you moving

Galaxy Fit2 helps you keep your rhythm and your style. The beautiful 3D glass accentuates the sleek design, and with its wide 1.1-inch full color AMOLED display, just a quick glance gives you all the info you need.

* Display size is 1.1", measured diagonally as a full rectangle without accounting for the rounded corners. Actual viewable area is less due to the rounded corners.

Thin design for all-day comfort

At a thickness of just 11.1mm, Galaxy Fit2 is slimmer and more comfortable than the Galaxy Fit. Styled for on-the-go, all-day wear, the unique groove in the strap prevents sweat from gathering. It's truly the ultimate fitness tracker, ready to take your comfort and style to a new level.

Built to fit your active lifestyle

Galaxy Fit2 is built as tough as you are. Water-resistant up to 50m with 5ATM certification, it lets you push yourself through workouts worry-free. Jump right in with confidence.

* Galaxy Fit2 has a water resistance rating of 50 meters under the ISO standard 22810:2010. It is not suitable for diving or high-pressure water activities.

Up to 15 days of battery with typical usage

Your epic workouts demand the most of you, and you should demand the same from your gear. Galaxy Fit2 can keep you going all day. It's an activity tracker that follows your daytime activities with minimal disruption and even monitors your sleep quality consistently over time-all on a single charge.

* Based on internal testing using a fully charged Galaxy Fit2 paired with a Galaxy smartphone. Battery life is up to 21 days in the low usage scenario (heart rate and auto workout tracker off; without wearing Galaxy Fit2 while sleeping) and up to 15 days in the typical usage scenario (without wearing Galaxy Fit2 while sleeping).

5 automated features to optimize your workouts

Galaxy Fit2 detects your workouts so all you have to do is focus on getting into the zone. It automatically recognizes five different exercises and tracks your time, heart rate, calories burned, and so much more. Its your move.

5 automated features to optimize your workouts

Walking is a great exercise to start your day with. Galaxy Fit2 detects your workouts so all you have to do is focus on getting into the zone. It automatically recognizes five different exercises including walking, so you can track your pace, time, heart rate, calories burned, and so much more.
