Specifications

Overview:

Stay connected longer. The features of a smartwatch and the natural feeling of an analog watch in a single package. Galaxy Watch links you to the world around you.

Features:

The new definition of authenticity

Match Galaxy Watch to your lifestyle with an authenticity you can see through a variety of watch faces and with depth and lighting effect. A round face, watch hand shadowing and ticking sound give it the feel of a real watch.

Your watch, your choice

Express yourself with your own Galaxy Watch. Go with a Bluetooth or standalone LTE model, and a body size of 42mm (Midnight Black, Rose Gold) or 46mm (Silver). Then follow it up with a customizable watch face to make it a true match for your lifestyle.

Showcase your style

Customize your Galaxy Watch with your choice of strap. Choose one to fit your fashion or mood before you step out. Opt for the lightweight silicone selection provided or fit one of your own - Galaxy Watch is compatible with 20mm and 22mm straps for its 42mm and 46mm models, respectively.

Always on, all the time

An Always On Watch, there's no need to press a button or turn the bezel on Galaxy Watch to show the time. Set the sAMOLED display to show at all times, letting you see the time whether it's day or night.

Now your music goes with you

With Galaxy Watch LTE version, your music travels with you wherever you go. Streaming your music online and connecting with your wireless earbuds free you from having to take your phone with you when you're out for a jog.

Product Specification Sheet

Lengthy battery life

Give your charger a rest some nights. With a long lasting battery life on a single charge, Galaxy Watch can manage calls, music, and more with a battery made to last.

Track your progress

Your own personal trainer, Galaxy Watch lets you focus on more exercise with less planning. Your watch can measure your heart rate and track six activities when you exercise. Select more to measure up to 39+ types of activities and more as you move from one to the other.

Track health monitoring

With Samsung Health, you can expand on Galaxy Watch's existing features to track and log your health in even greater detail, including heart rate and calories.

Rest and relax for a better you

Learn about your nighttime so you can feel better the next day. Galaxy Watch tracks your sleep quality, creating a log including 4 stages of sleep. It also monitors your stress levels to assist you with reduction through guided breathing.

Know what each day holds

Wake up to what you need to know. Galaxy Watch detects when you wake up, displaying a morning briefing with the weather, today's schedule, reminders, and more.

Review your day before bed

Reflect on your day before bed. Another briefing based on your sleep patterns displays before bedtime, including remaining reminders and your health data for the day.

Your day at a glance

Galaxy Watch wakes up with you and helps you stay on track. The My Day watchface displays your schedules for the next 10 hours, summing them up in a single glance.

Apps in abundance

Have a look through the large selection of apps for your Galaxy Watch for what suits your needs. With a large and increasing number of contents providers, there's a lot out there to choose from.

Plot your course for what lies ahead

Galaxy Watch comes with GPS so you know where you are and where you're going. Added to this are a built-in altimeter and barometer for when you need to take it off the beaten track.

Engineered to endure

Wear your Galaxy Watch out in the rain or other challenging conditions. Its 5 ATM* water resistance and military standard durability** allow you to be more active outdoors, enduring through tough conditions.

Leave your wallet behind

With Samsung Pay* on your Galaxy Watch**, making a purchase is as easy as a flick of the wrist - no need to take your phone or wallet outside with you.

Charging made simple

Charging Galaxy Watch itself is effortless. Set it down on the wireless charging dock* and the charging process begins on its own.

Stay connected to your IoT devices

Based on your sleep and activity patterns, Galaxy Watch controls your appliances to simplify your life. Home IoT function lets you control other objects such as your TV, robot vacuum cleaner, and air conditioner. Use a personalized set of commands to
