Product Overview

BitDefender 2015 - Anti Virus 1 User

Specifications

Overview:

Bank Online Without Worries

Make online transactions from a unique, dedicated browser, that secured your accounts from fraud. Bitdefender Safepay can now also automatically fill credit card details in billing fields.

Active Virus Control

Active Virus Control is a proactive, dynamic detection technology. It monitors processes' behavior in real time, as they are running, and tags suspicious activities.

Rescue Mode

If e-threats, such as rootkits, cannot be removed from within the Windows operating system, the computer is re-booted in Rescue mode - a trusted environment which is then used for cleanup and restoration.

Social Network Protection

Bitdefender Safego filters social-networking specific e-threats by scanning links you receive from your Facebook friends, monitors your privacy settings, and much more!

Fraud warnings. Secure browsing.

Bitdefender Antivirus Plus 2015 tells you if a link is safe even before you click it in Google and Bing search results. Furthermore, it blocks access to infected links that you have already clicked.
