What's new with windows 8.1

- Outlook email and multitask
- Store
- Video editing
- Photo app
- Onenote and familiar desktop
- Search

It plays as hard as it works

- Windows 8.1 gives you the power to quickly browse, watch movies, play games, polish your resume, and pull together a killer presentation - all on a single pc. Now you can organize up to three apps on your screen at once in a single view.

The start screen

- Personalize your start screen with your favorite news, friends, social networks, and apps. Customizable colors and

backgrounds and four different sizes of tiles make your device as unique as you are.

The apps you want

- In addition to great built-in apps for email, people, photos and video editing - you can also download thousands of popular apps from the windows store, including netflix, espn, skype and halo: spartan assault.

Security

- Stay up to date and more secure with windows defender, windows firewall, and windows update.

Speed

- Windows 8.1 starts up faster, switches between apps faster, and uses power more efficiently than previous versions of windows, including windows 7.

Your familiar desktop

- From the start screen, you are just a click away from the familiar windows desktop you know so you can do the stuff you've always done.

Multitasking made easy

- It's easy to do more at once. Snap multiple apps side by side in a single view for easy multitasking.

Mouse, keyboard-and now touch

- Windows 8.1 works harmoniously with various types of devices, including touch, mouse-and-keyboard, or both. Whatever kind of device you have, you'll discover fast and fluid ways to switch between apps, move things around, and go smoothly from one place to another.

Your files, everywhere

- Stay connected to your photos and important files and access them on your phone, tablet or pc with skydrive. By signing in with your microsoft account to any of your pcs running windows 8.1 and you'll immediately see your own background, display preferences, and settings.

You keep all your files

- If your pc is running windows 7, your files, apps and settings will easily transfer to windows 8.1.

You keep familiar programs

- Programs that run on windows 7 will run on windows 8.1.

Your office. Your way.

- Experience office at its best on windows 8 devices. Discover new and better ways to create, edit, and browse-using a keyboard, pen, or touchscreen. Don't forget: office is not part of windows 8.
- Some features require windows 8.1. Update available through windows store for windows 8 users. Internet access required; fees may apply. Don't forget, office isn't included in windows 8.
