SonicGear SonicGo! Boom 5 Atlantic Portable Bluetooth Speaker

Specifications

About this product

The SonicGear SonicGo Boom 5 Atlantic Portable Bluetooth Speaker delivers powerful 8W sound with deep bass, RGB lighting effects, and Bluetooth 5.4 connectivity for fast and stable wireless performance. Designed for portability and everyday use, it supports multiple playback modes including Bluetooth, USB, TF card, and FM radio. Buy now from our website and enjoy compact, high quality audio wherever you go in South Africa.

Overview Summary

SonicGear SonicGo Boom 5 Atlantic Portable Bluetooth Speakeris a compact wireless audio solution designed for users who want strong sound performance in a portable form factor. It features dual 66mm drivers and 8W total output power, making it suitable for both indoor and outdoor listening.

The speaker uses Bluetooth 5.4 technology for stable connections and low power consumption, while its IPX4 water resistance helps protect it from light splashes and outdoor conditions. The built-in RGB lighting enhances the audio experience, making it ideal for parties, casual listening, and mobile entertainment.

With multiple playback options including USB, TF card, and FM radio, the SonicGo Boom 5 offers flexibility beyond wireless streaming. Its rechargeable battery provides several hours of playback time, making it a practical everyday portable speaker.

Performance tier: Entry-level portable Bluetooth speaker

Uses:home audio, outdoor listening, travel speaker, parties, casual music playback

Description

The SonicGear SonicGo Boom 5 Atlantic is a portable Bluetooth speaker built for convenience, durability, and everyday entertainment. Its compact cylindrical design makes it easy to carry, while the durable build and IPX4 rating provide resistance against light water splashes and outdoor use conditions.

Equipped with Bluetooth 5.4, the speaker ensures fast pairing and stable audio streaming from smartphones, tablets, and laptops. The dual driver system delivers balanced sound output with enhanced bass response, suitable for music, podcasts, and FM radio playback.

The RGB lighting system adds a dynamic visual effect that syncs with music playback, making it ideal for social gatherings or personal entertainment setups.
