Norton Internet Security 2013 AF 1 User 3LIC Box DVD

Product Overview

Norton Internet Security 2013 AF 1 User 3LIC Box DVD PKG Retail Pack

Specifications

Overview:

Norton Internet Security's five patented layers of protection and powerful cloud features protect you from threats, no matter where you go or what you do online.

The ultra-fast network defense layer stops threats before they can even reach your PC. Norton blocks dangerous websites and scans your Facebook News Feed for unsafe downloads and links. You can surf, shop, share, and socialize online without downloading threats, getting ripped off, or having your passwords and identity stolen.

Advanced reputation and behavior antivirus technology lets you share freely without getting or passing on viruses. It scans all downloads for viruses and eliminates them. It even protects you from viruses that haven't been invented yet. And the powerful Norton threat-removal layer targets and gets rid of hard-to-remove infections that less sophisticated products often miss

Features:

- Viruses not seen before.
- Online identity theft when you bank or shop.
- Bad files and websites when you browse and share.
- Phishing scams.
- Theft of your personal information.
- Hard-to-remove infections.
- Spyware.
- Spam.
- Social network threats when you socialize.
