Norton Antivirus 2013 1 User DVD

Product Overview

NORTON ANTIVIRUS 2013 AF 1 USER DVD

Specifications

Overview

Say goodbye to viruses
It's okay to blink, because we never do - SONAR technology and live 24x7 Threat Monitoring watch over your PC for any suspicious behavior to quickly identify threats.

Download away
Scan the files you download and eliminate online threats found.

Deep clean your PC
Powerful Threat-Removal Layer targets and scrubs out aggressive, hard-to-remove infections that less sophisticated products often miss.

Harness global power
Brings you the ultra-fast Network Defense Layer to block a multitude of threats before they can even touch your PC.

Protection from the future
Our exclusive reputation and behavior antivirus technology are so advanced that they can stop online threats that bad guys haven't even created yet.

Keep out trespassers
Browser Protection blocks unsafe websites that secretly download software that can steal personal information or take over your PC.

Shop, surf and visit social networks without worry
Block "phishing" websites set up to trick you into leaking your passwords, credit card numbers or worse.

Password protection
Protects your identity by securely storing and automatically entering your user names and passwords.

Features

- 5 patented layers of protection detect and eliminate threats more quickly and accurately than other technologies.
- Proactively protects you by checking for and blocking online threats as your browser loads, to stop online threats before they can do damage.
- Stays ahead of, detects and eliminates threats that haven't been invented yet by watching your PC for suspicious activity.
- Targets and eliminates hard-to-remove threats less sophisticated products often miss.
- Improves performance by identifying safe files and only scanning unknown files.
- Protects you from dangerous applications before you install them by telling you if they are harmful or unstable.
- Automatically sends you important product and feature updates throughout the year. The latest version installs without you needing to do anything.
- Offers you expert help and answers by phone, live chat or online, whenever you need them.1
- Cloud-based controls let you fix, update, renew and install Norton? AntiVirus over the Internet with a few simple clicks. It brings together your available Protection for other devices, like your computer, smartphone or tablet, in one place.
- Automatically adjusts Norton? data usage updates when you connect to 3G networks to avoid using up your monthly data allotment or causing overage fees.
- Stops cybercriminals from using security holes (vulnerabilities) in applications to sneak threats onto your PC.
- Updates your protection every 5 to 15 minutes, without disrupting you
