It's easy to connect via Bluetooth, USB, or the BT51-C dongle and offers up to 26 hours of talk time on a single charge. Shop now for a superior communication experience with this high-quality speakerphone.

Performance tier:Premium

Uses:Virtual meetings, conference calls, remote work, music listening, office collaboration

Overview:

Yealink SP96 Bluetooth Speakerphone: Professional Audio for Every Setting

The Yealink SP96 Bluetooth Speakerphone is designed to elevate your communication experience, combining cutting-edge microphone technology, superior audio quality, and a sleek, intuitive design. Whether you're working from home, attending virtual meetings in the office, or collaborating on the go, the SP96 delivers crisp, clear sound that ensures every word is heard.

Description:

The SP96 Bluetooth Speakerphone features a state-of-the-art setup with six beamforming microphones, AI noise reduction, and full-duplex communication, offering unmatched clarity for both the speaker and listener. Equipped with a 65mm full-range speaker and virtual bass technology, it provides rich, immersive sound for calls, music, and meetings. The device supports seamless connection with a variety of devices, ensuring easy integration whether you're using USB, Bluetooth, or the BT51-C dongle. With a long-lasting battery, the SP96 ensures you stay connected for up to 26 hours on a single charge, making it perfect for long meetings or travel. Its flexible daisy chain feature also allows for expanding coverage to accommodate larger rooms.

Features:

Professional Sound for Every Environment

The Yealink SP96 is engineered for clear, professional audio in any setting. With six beamforming microphones, it captures your voice from up to 5 meters away, ensuring your words come through with perfect clarity-whether you're sitting at your desk or moving around the room. AI-powered noise cancellation removes background distractions, so your calls remain focused and clear, no matter the environment.

Immersive Audio Quality

Experience every word in crystal-clear detail with the SP96's 65mm full-range speaker and wideband audio technology. Whether you're in a meeting or listening to music, virtual bass technology enhances the sound, making every tone feel richer and more immersive. With the SP96, you never miss a beat, ensuring that calls are both vibrant and easy to understand.

Full-Duplex Technology for Seamless Conversations

The SP96 allows participants to speak at the same time without cutting each other off, thanks to its full-duplex communication technology. Conversations flow naturally without the interference of delays or dropouts. Additionally, acoustic echo cancellation ensures that annoying feedback is eliminated, so you can enjoy smooth, uninterrupted dialogues.

LCD Screen for Quick Status Updates

The built-in LCD screen on the SP96 provides real-time updates on call information, Bluetooth status, and more, making it easy to monitor the device's performance at a glance. Its intuitive button layout ensures effortless control over all settings, letting you focus on the conversation, not the technology.

Expand Your Coverage with Daisy Chain Connectivity

Need to amplify your audio coverage for larger spaces? Simply link two SP96 devices using the daisy chain feature, and enjoy enhanced sound quality for up to 20 people. This easy-to-use function ensures everyone in the room can be heard clearly, making it ideal for team meetings and conferences in larger spaces.

Flexible Connection Options for Modern Workflows

The SP96 is designed to fit seamlessly into your work setup, wherever that may be. Whether you're working from home, in the office, or traveling, it offers multiple connection options: USB, Bluetooth, or the BT51-C dongle. No matter where you are, connecting to your laptop or mobile phone is fast and hassle-free.

Long Battery Life for All-Day Performance

The SP96 is equipped with a powerful battery that provides up to 26 hours of talk time. This makes it perfect for extended meetings or long workdays. When you're ready to move, the compact and durable design makes it easy to toss the device into

your bag and take it with you wherever your workday leads.

Compatibility Across Platforms

Seamlessly integrate the SP96 with over 100 platforms and operating systems, ensuring reliable connectivity for all your business and personal communication needs. Whether you're using it for work calls, video conferences, or listening to audio content, the SP96 works effortlessly with your preferred tools.

Advanced Microphone Technology

The SP96 utilizes six high-quality microphones to pick up sound from any angle, ensuring that your voice is heard clearly regardless of your position. Yealink's AI noise reduction technology effectively filters out background noise, focusing solely on your voice for the clearest possible communication.

Exceptional Audio Experience

Enjoy powerful audio with the SP96's 65mm speaker and ultra-wideband calling technology. The combination of rich, detailed sound and virtual bass technology ensures that both calls and music are immersive and enjoyable. Whether you're on a call or listening to a presentation, the SP96 delivers superior audio quality for every conversation.

Sleek LCD Display for Intuitive Control

The SP96's sleek design is complemented by its integrated LCD display, which provides easy-to-read status updates for call information, connection status, and more. The intuitive controls make it simple to adjust settings, ensuring that the device is always ready when you are.

Effortless Daisy Chain Functionality

For larger rooms or meetings with more participants, the SP96 allows for a simple wireless connection between two devices. This feature expands the audio coverage, ensuring that everyone in the room can hear and be heard clearly.

Versatile Connectivity for Any Environment

Whether you're working from home, the office, or on the go, the SP96 connects easily to your computer or mobile phone via USB, Bluetooth, or the BT51-C dongle. This flexibility ensures that you can stay connected no matter where your work takes you.

Reliable, Long-Lasting Battery

The SP96 offers an impressive 26 hours of talk time, ensuring you can stay connected throughout the workday without worrying about running out of power. When you need to move, its compact design makes it easy to carry and use wherever you go.

With its advanced microphone technology, exceptional audio quality, and user-friendly design, the Yealink SP96 Bluetooth Speakerphone is an ideal choice for anyone seeking professional-grade sound in a portable, easy-to-use device. Whether for remote work, virtual meetings, or audio entertainment, the SP96 delivers the performance and versatility you need to stay productive and connected.
