Specifications

Overview Summary:

Experience superior sound and comfort with the SteelSeries Arctis Nova 3XW White Wireless Gaming Headset, designed specifically for Xbox gamers who demand precision and style. This headset features a lightweight dual-hinge design that weighs just 260g, ensuring you can game for hours without fatigue while delivering crystal-clear audio through its neodymium magnetic drivers.

Take control of your sound with the SteelSeries mobile app, allowing you to customize presets for popular titles like Call of Duty and Fortnite directly from your phone. With Quick-Switch wireless technology, you can seamlessly toggle between 2.4GHz low-latency gaming and Bluetooth music streaming on the fly. Don't miss out on this premium audio experience; buy now to elevate your gameplay today.

Performance tier:High-End Wireless

Uses:Gaming, Music Streaming, Voice Chat, Cross-platform Play, Mobile Gaming

Overview:

The SteelSeries Arctis Nova 3X Wireless in White is a versatile gaming headset designed to deliver high-performance audio for Xbox gamers while maintaining cross-platform compatibility. This model integrates seamlessly with the SteelSeries mobile app, allowing users to customize sound profiles specifically for popular titles like Call of Duty and Fortnite directly from their smartphones. The headset features an optimized fast charging system that provides nine hours of playtime from just a fifteen-minute charge, ensuring you stay in the game without interruption. Whether you are connecting via 2.4GHz wireless for low-latency gaming or Bluetooth 5.3 for mobile music, the device offers distinct audio presets that automatically switch when you toggle between connections.

Description:

The SteelSeries Arctis Nova 3X Wireless headset (Part Number: 61690) combines superior sound quality with exceptional comfort and connectivity options. It features neodymium magnetic drivers for a deep, detailed soundscape and includes a detachable ClearCast Gen 2 microphone for crystal-clear voice communication. The lightweight 260-gram design reduces fatigue during long sessions, while the dual-hinge construction ensures lasting durability. With support for ChatMix controls directly on the headset and compatibility across Xbox, PlayStation, PC, and Switch, this headset is built to enhance your gaming experience without compromising on audio fidelity or ease of use.

Features:

Key Audio Experience

Hear every step and detail with precision thanks to the 40 mm neodymium magnetic drivers that deliver a frequency response ranging from 20 Hz to 22,000 Hz. The headset supports 360-degree spatial audio to create an immersive soundscape, helping you locate enemies in competitive shooters. You can tailor your listening experience using the SteelSeries mobile app to optimize sound for specific games or music genres, ensuring that footsteps are louder and dialogue is clearer when it matters most. The system also includes a built-in ChatMix feature that lets you balance game volume against in-game chat instantly.

- 40 mm Neodymium Drivers for rich bass and clear highs
- Frequency Response of 20-22,000 Hz with less than 1% total harmonic distortion
- 360degrees Spatial Audio support for immersive positioning
- Customizable audio presets via mobile app for games like Call of Duty and Fortnite
- Sensitivity of 107 dB SPL @ 1kHz/1mW with 36 Ohms impedance

Connectivity and Cross-Platform Support

The Arctis Nova 3X Wireless offers flexible connectivity options to suit any gaming setup. The nano-sized USB-C dongle provides a low-latency 2.4GHz connection for console gaming while keeping nearby ports accessible due to its L-shaped design. You can also switch seamlessly to Bluetooth 5.3 for mobile devices, with the headset remembering your preferred audio preset for each mode. Although you can connect to both networks simultaneously, the headset plays one audio stream at a time, allowing you to tap the power button to instantly toggle between gaming and music modes.

- 2.4GHz Wireless Gaming Connection for low latency
- Bluetooth 5.3 for mobile and PC audio streaming
- Cross-platform compatibility with Xbox, PlayStation, Switch, PC, and handhelds
- Quick-Switch button to toggle between wireless modes instantly
- No need for additional software on Xbox as ChatMix is natively supported

Battery Life and Charging

Frustration-free battery management is central to the design of this headset, which delivers up to 30 hours of playtime on a 2.4GHz connection or up to 40 hours when using Bluetooth mode. The USB-C fast charging capability ensures that a quick fifteen-minute charge grants nine hours of gameplay, so you can jump back into action without waiting for a full recharge. This reliability makes it an ideal choice for long gaming sessions where consistent performance is critical.

- Up to 30 hours battery life on 2.4GHz wireless
- Up to 40 hours battery life on Bluetooth mode
- Fast charging: 15 minutes provides 9 hours of playtime
- USB-C charging port for universal compatibility

Microphone and Voice Clarity

Communication is crucial in multiplayer environments, which is why the Arctis Nova 3X includes a detachable ClearCast Gen 2 microphone with bidirectional noise cancellation. This technology filters out background noise to ensure your voice comes through clearly at high bandwidth quality of 32KHz/16-bit. The microphone frequency response ranges from 100 Hz to 10,000 Hz, and the sensitivity is optimized for wireless transmission to maintain clarity whether you are using it on a console or PC.

- Detachable ClearCast Gen 2.X Boom Microphone
- Bidirectional noise cancelling pattern reduces background interference
- High bandwidth audio at 32KHz/16-bit for crystal clear voice
- Frequency response of 100-10,000 Hz on wireless mode

Comfort and Design

Designed with long gaming sessions in mind, the headset weighs only 260 grams to prevent neck strain and headaches. The rugged dual-hinge design provides future-proof durability while maintaining a sleek profile. On-ear controls allow you to adjust volume, manage ChatMix settings, mute the microphone, or power the device on and off without reaching for your console or PC. You can also control Bluetooth music playback directly from the headset by pressing the multi-function volume wheel once

for play/pause, twice to skip forward, or three times to skip backward.

- Weighs only 260 grams for lightweight comfort
- Rugged dual-hinge design ensures long-term durability
- On-ear controls include Volume/ChatMix dial and Power button
- Dedicated mute button for quick communication control
- Multi-function volume wheel for music playback commands

Software Compatibility

To get the most out of your headset, you can utilize the SteelSeries Arctis Companion app on iOS 15.6 or Android 9 to customize audio presets and manage settings. For PC users running Windows 8.1 or above (and Mac OS 10.13+), the GG + Engine software provides full control over your audio experience. Advanced users can also install the free Sonar Audio Software Suite on Windows 10 or later to enable ChatMix features directly from their computer, offering granular control over game and chat balance.

- Arctis Companion App supports iOS 15.6 and Android 9
- GG + Engine compatible with Windows 8.1+ and Mac OS 10.13+
- Sonar Audio Software Suite required for ChatMix on PC (Windows 10+)
- Native ChatMix support on Xbox without additional software

What's in the box

Your purchase includes everything needed to start gaming immediately. The package contains the Arctis Nova 3X Wireless headset, a compact USB-C wireless dongle for console connectivity, a USB-C to USB-A adapter for PC compatibility, a 1-foot USB-C charging cable, and a microphone pop filter to further enhance voice clarity during streaming or recording.

- Arctis Nova 3X Wireless Headset
- Compact USB-C Wireless Dongle
- USB-C to USB-A Adapter
- USB-C to USB-C Charging Cable (1 ft / 0.3m)
- Microphone Pop Filter

The product part number for this specific model is 61690, ensuring you receive the correct version of the SteelSeries Arctis Nova 3X Wireless headset compatible with your preferred gaming ecosystem.

FAQ

Is the SteelSeries Arctis Nova 3XW compatible with Xbox, PlayStation, Switch, and PC?

Yes, the headset features cross-platform play support. The included nano-sized USB-C adapter allows for plug-and-play connectivity on Xbox, PS5, Nintendo Switch, and PC while keeping nearby ports accessible due to its L-shaped design.

Can I listen to game audio and Bluetooth music simultaneously?

While the headset maintains both 2.4GHz and Bluetooth connections at the same time, it only allows one audio stream at once. You can instantly switch between gaming on 2.4GHz and your preferred Bluetooth preset by tapping the power button.

How do I control music playback or take calls using the headset?

You can manage Bluetooth music directly via the multi-function volume wheel: press once for play/pause, twice to skip forward, three times to skip backward, and depress the wheel to activate these controls. For incoming phone calls on a

Product Specification Sheet

2.4GHz connection, press the Power/Quick-Switch button once to answer or switch modes, press it again to hang up, or press it twice quickly to reject.

Can I adjust game and chat volume balance directly from the headset?

Yes, you can access ChatMix by long-pressing the volume button until you hear a tone. Use the wheel to select your mix level (0%, 50/50, or 100% chat). Note that on PC, you must install SteelSeries Sonar Software to enable this function, whereas it works natively on Xbox.

How long does the battery last and how fast is the charging?

The headset offers up to 30 hours of playtime on 2.4GHz wireless or up to 40 hours on Bluetooth. For quick top-ups, a 15-minute USB-C charge provides approximately 9 hours of additional gameplay.
