Specifications

Overview Summary:

Enhance your gaming experience with the SteelSeries Arctis Nova 3P Wireless in a striking Lavender finish, designed specifically for PlayStation users. This lightweight headset delivers high-fidelity audio powered by neodymium magnetic drivers and supports seamless switching between 2.4GHz wireless for low-latency gameplay and Bluetooth for mobile connectivity. With an impressive battery life of up to 30 hours on the 2.4GHz connection or 40 hours via Bluetooth, you can game for days without interruption.

Take control of your audio with the SteelSeries Arctis Companion app, allowing you to customize sound profiles optimized for popular titles like Call of Duty and Fortnite directly from your smartphone. The ClearCast Gen 2 microphone ensures crystal-clear voice communication, while the dual-hinge design guarantees comfort during extended sessions. Upgrade your setup today by buying this premium headset now.

Performance tier:High-End Wireless

Uses:Competitive Gaming, Music Listening, Mobile Gaming, Voice Chat, Cross-Platform Play

Overview:

The SteelSeries Arctis Nova 3PW in Lavender is a versatile wireless gaming headset designed for PlayStation, PC, and Nintendo Switch. This model combines low-latency 2.4GHz connectivity with Bluetooth 5.3 support, allowing gamers to switch seamlessly between high-speed game audio and mobile music or calls without compromising performance. The lightweight design weighs only 260g and features a durable dual-hinge construction that ensures long-lasting comfort during extended gaming sessions.

Description:

The Arctis Nova 3PW delivers superior sound quality through neodymium magnetic drivers and supports customizable audio profiles via the companion app. With quick-switch technology, users can toggle between game and mobile modes instantly while retaining separate presets for each connection type. The detachable ClearCast Gen 2 microphone ensures crystal-clear communication, and fast charging provides nine hours of playtime from just a fifteen-minute charge session.

Features:

Key Features:

ComX Computers

Product Specification Sheet

- Dual wireless connectivity with instant switching between 2.4GHz and Bluetooth 5.3
- Custom audio presets for popular games like Call of Duty and Fortnite via the mobile app
- Lightweight 260g design with a rugged dual-hinge frame for maximum durability
- Detachable ClearCast Gen 2 microphone featuring bidirectional noise cancellation
- Fast charging capability providing up to nine hours of playtime in just fifteen minutes
- Compatible with PlayStation, PC, Nintendo Switch, and handheld devices

Audio performance is optimized for competitive gaming with a frequency response ranging from 20Hz to 22kHz. The headset utilizes 40mm neodymium drivers to produce a deep and detailed soundscape that helps players locate footsteps and other critical in-game audio cues. For those who prefer wired control on PC, the free Sonar software enables advanced ChatMix adjustments, allowing users to balance game volume against chat levels directly from their computer or headset controls.

The Arctis Companion mobile app enhances the user experience by offering tailored sound profiles for different genres and games. Users can manage audio settings on iOS 15.6+ or Android 9+ devices, ensuring a personalized listening environment whether they are playing on console or mobile. The system also supports 360-degree spatial audio to further immerse players in their virtual worlds.

Technical Specifications:

- Speaker Drivers: 40mm Neodymium
- Frequency Response: 20-22,000 Hz
- Sensitivity: 107 dB SPL @ 1kHz/1mW
- Impedance: 36 Ohms
- Total Harmonic Distortion: Less than 1%
- Microphone Type: ClearCast Gen 2.X Detachable Boom
- Microphone Bandwidth: 32KHz/16Bit
- Battery Life (Wireless): Up to 30 hours
- Battery Life (Bluetooth): Up to 40 hours

Connectivity is simplified with a nano-sized USB-C adapter that is fully compatible across multiple platforms. The L-shaped design of the dongle ensures nearby ports remain accessible, preventing cable clutter on gaming consoles or laptops. Part number 61692 identifies this specific Lavender edition of the Nova 3 series, ensuring compatibility with the latest SteelSeries software ecosystem.

Control is intuitive and accessible directly from the headset. The multi-function volume wheel allows for play/pause commands and track skipping when listening to Bluetooth music. Long-pressing the volume dial activates ChatMix mode on supported platforms, while a dedicated mute button provides instant silence during gameplay. The power button serves as the hub for pairing and switching between wireless modes.

In addition to gaming capabilities, this headset handles phone calls seamlessly. When an incoming call is received while on 2.4GHz audio, users are notified through the headset and can answer by pressing the Power/Quick-Switch button once. Rejecting a call requires a quick double press, and hanging up involves a single press of the same button. The system automatically returns to game audio once the call ends.

What's in the box

- Arctis Nova 3P Wireless Headset
- Compact USB-C Wireless Dongle
- USB-C to USB-C Charging Cable (1 ft / 0.3m)
- Microphone Pop Filter

The included software suite supports Windows 8.1 and above for GG + Engine functionality, while the full Sonar Audio Software Suite requires Windows 10 or higher to enable ChatMix features on PC. Mac users can also utilize the GG + Engine

FAQ

Which devices are compatible with the SteelSeries Arctis Nova 3P Wireless headset?

The headset features a USB-C plug-and-play adapter that makes it fully compatible with PlayStation, Nintendo Switch, and PC. It also supports Bluetooth for use on mobile devices and other platforms.

Can I switch between gaming audio and phone calls without disconnecting my device?

Yes, the headset allows you to have a 2.4GHz connection for games and a Bluetooth connection active at the same time. When a call comes in while you are gaming on 2.4GHz, you will hear a notification; pressing the Power/Quick-Switch button answers the call and switches the audio to Bluetooth automatically.

How do I adjust game chat volume directly from the headset controls?

You can access ChatMix by long-pressing the volume button once to hear an audio tone indicating you are in the mode. Pressing it again returns the wheel to standard volume. Note that on PlayStation, this feature must be controlled using the on-screen menus accessed via the 'PS' button.

How quickly can I charge the headset for extended play sessions?

The headset features optimized fast charging where a 15-minute charge provides up to 9 hours of playtime. The battery life lasts up to 30 hours on the 2.4GHz wireless connection or up to 40 hours when using Bluetooth.

Can I use separate sound profiles for my console and mobile music?

Yes, with the Arctis Companion mobile app you can select a specific preset for gaming audio over 2.4GHz and an independent one for music played via Bluetooth. The headset automatically activates your saved preset whenever you switch connections.
