Specifications

Overview Summary:

Upgrade your setup with the SteelSeries Apex 3 TKL, a premium tenkeyless gaming keyboard engineered for South African gamers who demand precision and durability. This sleek keyboard features whisper-quiet switches that deliver over 20 million keypresses without the noise, making it perfect for late-night sessions or shared spaces. With its IP32 water-resistant design, you can play with confidence knowing your gear is protected against accidental spills.

Enjoy customizable PrismSync RGB lighting across eight zones and dedicated multimedia controls that let you manage volume and media instantly. The compact layout provides ample room for precise mouse movements, a favorite among esports professionals for its ergonomic advantages. Secure your competitive edge today by buying now at our online store.

Performance tier:High-Value Gaming

Uses:Competitive gaming, streaming, typing, multimedia control, esports tournaments

Overview:

The SteelSeries Apex 3 TKL (Part Number 64831) redefines the tenkeyless gaming experience by combining professional-grade ergonomics with durable, whisper-quiet performance. Designed for esports enthusiasts and competitive gamers, this keyboard eliminates the numpad to create more room for large mouse movements while maintaining a compact footprint that suits any desk setup. The device features proprietary Whisper Quiet switches built from highly durable POM rubber domes that offer a mechanical-like feel without the noise, ensuring you can focus on your game regardless of the time of day.

Description:

The Apex 3 TKL is the first water-resistant tenkeyless gaming keyboard in its class, rated IP32 to protect against accidental spills and dust. It delivers a premium typing experience with anti-ghosting technology across critical keys, ensuring every command registers instantly during intense gameplay. The board includes dedicated multimedia controls for quick volume adjustments and SteelSeries Engine software support for customizable PrismSync RGB lighting across eight distinct zones.

Features:

Why Gamers Choose the Apex 3 TKL

This keyboard is engineered to match the preferences of professional players who prioritize speed, accuracy, and desk space. The compact layout allows for lower mouse sensitivity settings and faster hand movements, which are essential advantages in competitive titles. Unlike standard membrane keyboards, the Apex 3 TKL utilizes a high-quality polymer frame and switches rated for 20 million keypresses to ensure consistent performance over years of heavy use.

Beyond durability and layout, the Apex 3 TKL offers seamless integration with your gaming ecosystem through intuitive software. You can program macros, adjust lighting effects based on in-game events, and reassign keys without interrupting your gameplay. The three-way cable routing system keeps your workspace tidy by allowing you to route the connection cord from the top, bottom left, or bottom right of the keyboard frame.

Key Technical Specifications:

- Switch Type: SteelSeries Whisper-Quiet Switches with 60g actuation force
- Lifespan: Rated for over 20 million keypresses using durable POM material
- Illumination: 8-Zone RGB lighting with 16.8 million color options

ComX Computers

Product Specification Sheet

- Anti-Ghosting: Gaming-grade coverage on all critical keys
- Dimensions: 364 mm width, 150 mm depth, and 40 mm height
- Weight: 639 grams for a stable, non-slip feel
- Water Resistance: IP32 certified against dust and liquid damage

Compatibility and System Requirements

The Apex 3 TKL is designed to work seamlessly with a wide range of platforms including Windows, Mac OS X, Chromebook, Xbox, and PlayStation. A standard USB port is required for operation on all supported devices. To unlock the full potential of the keyboard's lighting effects and macro capabilities, users must install the SteelSeries GG or Engine software. The software requires Windows 8.1 or later for PC users and Mac OS 10.12 or later for Apple systems.

FAQ

Is the SteelSeries Apex 3 TKL compatible with my computer or console?

The keyboard works with Windows, Mac OS X, Chromebook (ChromeOS), Xbox, and PlayStation, provided you have a USB port available.

How does this keyboard compare to the standard Apex 3?

The Apex 3 TKL features all the same capabilities as the Apex 3 but includes a compact esports form factor that eliminates the ten-key numpad for more mouse space and better ergonomics.

Can I use the lighting and macro features on my Mac or PC?:

You can configure brilliant PrismSync lighting effects and use the SteelSeries Engine software to create macros, though you will need Windows 8.1+ or Mac OS 10.12+

How durable is this keyboard against spills and heavy gaming sessions?

The Apex 3 TKL is rated IP32 for dust and water resistance to prevent damage from liquids, and the Whisper Quiet Switches are designed for over 20 million keypresses using highly durable POM rubber dome sheets.

Does this keyboard come with dedicated controls for media playback?

Yes, it includes a clickable volume roller and media keys so you can adjust brightness, rewind, skip, or pause without switching applications.
