Specifications

About this product

The Microworld STE005 Stereo Male 3.5mm to Mic Headset Female 3.5mm connector is a practical audio adapter for connecting equipment with a single 3.5mm stereo connection to separate microphone and headset connections. Ideal for compatible laptops, desktop computers, gaming setups and other audio equipment. Buy now from our website for a simple audio connection solution.

Overview Summary

Microworld STE005 Stereo Male 3.5mm to Mic Headset Female 3.5mm Connectoris designed to provide a convenient connection between a compatible 3.5mm stereo male port and separate microphone and headset female 3.5mm connections.

This compact audio connector is useful when connecting compatible headsets and microphones to equipment where the required audio connections need to be separated. It is suitable for desktop computers, laptops and other compatible audio devices.

Performance tier: Entry-level audio connectivity

Uses: Headset connection, microphone connection, PC audio connectivity, laptop audio connectivity, gaming audio setups

Description

The Microworld STE005 is a compact audio connector designed for compatible devices that require a 3.5mm stereo male connection with separate microphone and headset female connections. It provides a straightforward way to connect compatible audio equipment where microphone and headset connections need to be available separately.

The adapter is suited to everyday audio connectivity applications involving compatible desktop computers, laptops, gaming equipment and other devices using 3.5mm audio connections. Its simple connector design makes it a practical accessory to keep available for audio setup and connection requirements.

For the best results, check that the source device and headset or microphone use compatible 3.5mm connection standards before purchasing. The STE005 is a connectivity adapter and does not replace a dedicated audio interface or sound card.

Features

The Microworld STE005 provides a practical connection solution for compatible audio equipment.

- 3.5mm stereo male input connector
- Female 3.5mm microphone connection
- Female 3.5mm headset connection
- Designed for compatible PC and laptop audio setups
- Suitable for compatible gaming headset applications

FAQ

What is the Microworld STE005 used for?

The Microworld STE005 is used to connect compatible equipment with a 3.5mm stereo male connection to separate microphone and headset female 3.5mm connections.

Can the STE005 be used with a laptop?

It can be used with a laptop when the laptop and connected headset or microphone support the required compatible 3.5mm audio connections.

Can the STE005 be used for gaming headsets?

Yes, it is suitable for compatible gaming headset setups that require separate microphone and headset connections.

Does the STE005 convert digital audio to analogue audio?

No. The STE005 is a physical audio connector adapter and does not perform digital-to-analogue audio conversion.

Is the STE005 compatible with every 3.5mm headset?

Compatibility depends on the connector configuration and audio standard used by the headset and source device. Check the equipment specifications before purchase.

What connectors does the STE005 have?

The STE005 has 1 x 3.5mm stereo male connector and separate female 3.5mm microphone and headset connections.
