Specifications

Features:

Everything Under Control
Strix Claw is the ultimate gaming mouse for first-person shooters, crafted for those who demand unrivaled precision, comfort and the competitive advantage. Right-handed ergonomics, Japanese-made Omron switches, gaming-grade 5000DPI optical sensor, angle-snap-free movement and flexible DPI controls ensure your every movement is tracked accurately and reflected instantly.

5000DPI high-precision, gaming-grade optical sensor
The world's best gamers know that optical sensors offer better accuracy and smoother movement than many laser equivalents. Strix Claw's PixArt PMW3310 gaming-grade optical sensor tracks at up to 5000DPI, and at speeds of up to 3.32 meters per second (130-inches/sec). The accuracy is adjustable in 50DPI increments, so configure Strix Claw to track just the way you want!

True 1:1 tracking and angle-snap-free movement
Many mice apply 'angle-snapping' to for straighter movements - but that's a serious annoyance when trying to line up those pixel-perfect shots to take out the enemy! Strix Claw's PMW3310 optical sensor delivers angle-snap-free movement, so you'll benefit from the freedom to position and aim precisely with true 1:1 tracking!

Instant DPI switches with four DPI stages and additional DPI clutch
Strix Claw's DPI switches toggle instantly between the highest sensor resolution for the fastest motion and lower resolutions, so you benefit from tailored precision. There's even a DPI clutch button for serious snipers - just press to reduce the DPI instantly for super-accurate aiming!

Right-handed ergonomics
The Strix Claw is crafted with right-hand ergonomics for all grip styles - and especially great for the finger and claw-style grips that work best in first-person shooters. The streamlined shape provides exceptional comfort and a great grip, so you'll move quickly, precisely and with complete confidence!

Japanese-made Omron D2F-01F switches

We've engineered Strix Claw with high-quality Japanese-made Omron D2F-01F switches so you can play longer in full comfort. The design offers more travel than many other switches for smoother clicking actions and great responsiveness. You press, and the click is registered - so no more strained muscles and tingling fingers!

Angled braided-fiber cable

Say goodbye to annoying tangles and movement-stopping snags and enjoy unfettered mouse swiping, thanks to Strix Claw's angled braided-fiber cable!

Software and plug-and-play hardware modes

Strix Claw includes the intuitive Strix software suite for easy setup and advanced personalization. If you're always on the go, Strix Claw's plug-and-play hardware mode and built-in 64KB memory let you attach and game with no installation hassles - so it's ready to play anywhere!

Unleash Your Gaming Instincts

Taken from the ancient Roman and Greek word for owl, Strix means the keenest hearing and sharpest eyesight. Strix means feeling your environment so that you detect and react to the slightest movement. Strix means survival on the very edge of instinct. Strix is in your blood, as it is in ours.
