- License: Microsoft Windows Server 2022 - 5 RDS User CALs
- Licence Type: ROK (Reseller Option Kit) / OEM tied to Dell server hardware
- CAL Licence Coverage: 5 RDS User CALs

About this licence

For use with Dell servers

This licence is an OEM-style Reseller Option Kit (ROK) intended for installation on Dell server hardware. It is tied to the specific hardware and cannot be transferred freely to non-Dell servers or reused outside of its hardware arrangement. The licence covers the Remote Desktop Services (RDS) Client Access Licences (CALs) for Windows Server 2022, allowing up to 5 users to access the server remotely via Remote Desktop Protocol (RDP).

The ROK licence requires appropriate Dell server hardware and is typically pre-installed or delivered alongside a qualifying Dell server purchase. It may not include separate media or product key packaging in the same way as retail boxed licences.

Use Case

This licence is intended for companies or IT departments deploying a Dell PowerEdge or other supported Dell server platform and wishing to allow up to 5 users to access Windows Server 2022 remotely via Remote Desktop Services. Example: If your organisation has 5 or fewer users that need remote access to the server, this licence would be appropriate. If more than 5 users require remote access, additional RDS CALs would be necessary.

Important notes

- ROK Licensing: ROK licences are OEM-style licences tied to specific eligible Dell hardware and are not transferable to other non-Dell servers once installed.
- No Media/Key: As a ROK kit, this licence may not come with full retail packaging or installation media in the traditional form; deployment is usually via Dell's deployment tools and lifecycle controller.

- Region-Specific: Ensure the licence is valid for your region (South Africa or applicable region) and that you purchase from authorised Dell distribution to ensure compliance.

Specification

- Product Name: Microsoft Windows Server 2022 - 5 RDS User CALs
- Manufacturer Part Number (MPN): 634-BYLB
- Licence Quantity: 5 RDS User CALs
- Software Edition: Windows Server 2022
- Licence Type: ROK - Reseller Option Kit
- Region: Available in South Africa and other regions through authorised Dell distribution - check region eligibility.

FAQ

Q: Can I install this licence on non-Dell server hardware?
A: No. As a ROK licence tied to Dell hardware, installation on non-Dell servers is generally not permitted under the licence terms.

Q: What if my organisation has more than 5 users needing remote access?
A: If your organisation has more than 5 users requiring remote access, you will need to purchase additional RDS CALs in increments of 5 to ensure compliance.

Q: Does this licence include CALs for users or devices connecting to the server?
A: Yes. This licence provides 5 RDS User CALs, which are required for users to access the server remotely via RDP.

Buy now

Get this 5-user RDS CAL licence now for use in South Africa. Buy from ComX Computers and get quick delivery on media and fast licence delivery by email for less, and get better prices than retail through our distribution partners in South Africa.
