SYN-AUDIOREMOTE

SYNOLOGY® Remote for Audio Station

Specifications

Overview;

Synology Remotefor Audio Station
Palm-sized Remote for Controlling Music Playback with Synology DiskStation

Synology Remote is designed for enjoying music playback of Audio Station at the comfort of your couch. It further enhances your music listening experience with its customizable hotkeys and the audio dock that connects DiskStation's audio with your home stereo and speakers. With the direction-free audio control, now you can enjoy the digital music collection freely in the house with the Synology Remote.

- True Plug & Play Experience
- Direction-Free RF Signal
- Hotkeys for Customization
- Flexible Audio Output Options

True Plug & Play Experience
No driver installation required, Synology Remote is ready to use right out of the box. By simply plugging the audio dock into your Synology DiskStation, and connecting your external speakers or stereo equipment to the audio dock, you can start enjoying Audio Station music playback with Synology Remote.

Audio Station Music Enjoyment
With Synology Remote, you can quickly play the music sources on Audio Station by pressing any of the following function buttons: The Random 100 button shuffles and plays 100 songs randomly; the Playlist button plays the songs or Internet radio stations in the playlists you created on Audio Station; the Radio button plays user specified or default Internet radio station on Audio Station; the iPod button plays the songs on your iPod when it is connected to the USB port of your Synology DiskStation. For all of the above music sources, you can easily play, pause, stop the playback, or navigate to the previous or next item with the navigation buttons.

Favorite Hotkeys of Your Own
No more waiting and searching for your favorite song or playlist. For instant preset and access to your collection, 4 customizable hotkeys are available for direct mapping to your favorite playlist, smart playlist and Internet radio station.

Flexible Audio Output Options
The audio dock is an USB Digital Audio Converter (DAC) with 3 audio outputs ranging from 3.5 mm Stereo Audio Jack, Optical

S/PDIF and USB interface, making your Synology Remote compatible with a variety of home stereo and speakers.

Eco Friendly
Synology Remote is produced with RoHS compliant parts and packed with recyclable packaging materials. Synology recognizes its responsibility as a global citizen and is continually working to reduce the environmental impact of the products we create.
