Crafting & Scrapbooking

Easily create patterns and cut materials to use in any crafting or DIY project

Mixed Media Artists

Unlimited creative potential with the ability to cut a variety of surfaces and materials

Quilting

Create custom quilt blocks and cut several fabric pieces at a time

Sewing

Easily cut fabric pieces; draw in sewing guidelines and add a seam allowance

Stand-alone

Create and edit your designs, all on the bright 12,7cm colour LCD touchscreen. The extra-large non-glare touchscreen makes it easier than ever to edit, zoom and customise your designs with no PC or mobile device required.

Blade Sensor Technology

Saving you time and making your cutting effortless the fully automatic blade system takes the away any guesswork, automatically detecting the correct cutting depth and pressure needed for the perfect cut. For even finer results you can manually adjust the settings to suit you.

Built-in Scanner

Scan virtually anything - a handmade drawing, a magazine clipping, cherished photos and more - create endless cut and draw designs and save to the machines memory.

Scan-to-cut-data

Scan, edit and create your own designs and save it as a cut file. ScanNCut SDX1200 will automatically create cut lines, which can be used to cut, draw or emboss*.

*Additional purchase required for embossing function

Direct Cut and Half Cut

Scan your material, create the outline cuts and select your design straight from the surface to cut out. Remove the hassle of hand-cutting designs from your favourite papers and fabrics. Also great for cutting personalised stickers, with the handy half cut function.

600dpi Scan to USB

Scan your favourite photos, drawings or large patterns on the generous scanning area of 12" x 24" with the 24" scanning mat. Save as jpeg files direct to USB flash drive.

* The 24" scan mat is available as an optional accessory. Additional purchase required.

Background Scanning

Dont let small or awkward pieces of card and fabric go to waste. With our background scanning function you can place your design exactly on your leftovers, saving you time and money.

Cut up to 3mm

Cut thicker materials like felt and foam up to 3mm. The new 3mm cutting blade gives you the freedom to explore a variety of materials, all with one versatile blade.

WLAN Connection

Wireless connection allows you to send designs directly from your free CanvasWorkspace account. No need for cables or USB

flash drives. http://canvasworkspace.brother.com

Fabric Cutting

Calling all quilters! Cut perfect quilting and patchwork pieces at the touch of a button. ScanNCut SDX1200 can even draw in and cut your desired seam allowance, so you can spend time on what you really enjoY.

Pen Draw

With ScanNCut SDX1200 you can change your cut file - whether its from a previous scanned image or a built-in design - then recreate the design into a drawing in a matter of seconds, with a selectIon of fill patterns to choose from.

Built-in Patterns

Packed with 17 fonts and 1,303 built-in designs, including 140 quilt and applique patterns, the ScanNCut SDX1200 has something for every person, project or occasion. Choose from basic shapes, intricate designs, borders, quilt and applique patterns, fonts and much, much more.

SVG Data Readability

With the ScanNCut SDX1200 there is no need to convert SVG files before cutting out, as the machine can read them directly. More time crafting, less time converting.

PES/PHC/PHX Readability

Convert your favourite PES/PHC/PHX* embroidery data into cutting or drawing files directly on the ScanNCut SDX1200. Able to recognise grey, colour, outline, region and stitch lines, your converted embroidery data can now be used for beautiful cutting, line art, embossing and foiling projects.

*To read PHX file, software version should be 1.1x or higher
