

TG-3468

TP-Link TG-3468 Gigabit PCI-e x1 Express Network Adapter

Product Overview

TP-Link TG-3468 Gigabit PCI-e x1 Express Network Adapter, 1x Gigabit RJ45 Port, 32-bit PCI-e Interface, Wake on LAN

Specifications

Overview Summary:

Upgrade your desktop's network performance with the TP-Link TG-3468 Gigabit PCIe Network Adapter. This high-speed adapter delivers up to 1000Mbps data transfer, perfect for gaming, streaming, and smooth online activities. Its simple installation and Wake-on-LAN (WOL) functionality make it ideal for home users, businesses, and IT professionals seeking efficient, remote management. Compatible with a wide range of Windows operating systems, it's the perfect solution to enhance your network connectivity. Shop now to improve your system's speed and reliability.

Performance tier:High-performance

Uses:Online gaming, video streaming, remote network management, file sharing, office networking

Overview:

TP-Link TG-3468 Gigabit PCIe Network Adapter

The TP-Link TG-3468 is a high-performance Gigabit PCIe network adapter designed to provide fast, reliable, and efficient network connectivity for your desktop PC. Whether you're upgrading an older system or building a new one, the TG-3468 ensures you get the full potential of your network with speeds up to 1000Mbps. Its compact PCIe x1 interface makes installation seamless and space-efficient.

Description:

The TP-Link TG-3468 Gigabit PCI Express Network Adapter is designed to enhance your computer's connectivity with a 10/100/1000Mbps network speed. Featuring a 32-bit PCIe interface, it optimizes your system's internal space and is compatible with both standard and low-profile desktop cases. The added Wake-on-LAN (WOL) functionality allows for convenient remote management and power cycling of your PC, ideal for IT administrators and users seeking efficiency. With support for multiple Windows operating systems, this network adapter provides flexibility and ease of use for both home and office environments.

Features:

Key Advantages of the TP-Link TG-3468 Network Adapter

- Gigabit Network SpeedEnjoy fast and reliable network performance with up to 1000Mbps data transfer speed, ensuring smooth online activities like gaming, streaming, and file sharing.
- 32-bit PCIe InterfaceThe 32-bit PCIe interface ensures compatibility with most systems, offering a quick and easy installation without taking up too much space inside your PC.
- Wake-on-LAN FunctionalityRemotely power your PC on or off via Wake-on-LAN (WOL), making it a great option for centralized management in both business and home networks.
- Compatible with Multiple Windows VersionsThe TG-3468 supports various Windows operating systems, including Windows 10, 8.1, 8, 7, Vista, and XP, offering wide compatibility across different devices and software configurations.
- Low-Profile Bracket IncludedThe package includes both a standard and a low-profile bracket, allowing you to install the network adapter in various computer case sizes, including mini-tower setups.

How the TP-Link TG-3468 Enhances Your Network Experience

The TG-3468 is an ideal solution for users looking to improve their desktop's network capabilities. Whether you're upgrading your current system or setting up a new one, its simple installation, high-speed performance, and remote management feature set it apart as an efficient and reliable choice for both personal and professional use.

Installation and Compatibility

Installing the TP-Link TG-3468 is straightforward, with a PCIe x1 interface that fits easily into most systems. Once installed, the adapter is fully compatible with major Windows operating systems, ensuring a hassle-free setup process.

Ideal Use Cases for the TP-Link TG-3468

- Home users looking for enhanced network speed and reliability for online gaming, streaming, and working from home
- Businesses requiring a cost-effective and easy-to-manage solution for network connectivity
- IT professionals seeking a device that supports Wake-on-LAN for efficient remote management of multiple systems

With its balance of performance, flexibility, and ease of use, the TP-Link TG-3468 is a perfect choice for users looking to boost their network performance at a great value.

Specifications	
Product Code	TG-3468
HARDWARE FEATURES	
Standards and Protocols	IEEE 802.3, 802.3u, 802.3ab, 802.3x, 802.1q, 802.1p, CSMA/CD, TCP/IP
Interface	32-bit PCI Express
	1 10/100/1000Mbps RJ45 port
Network Media	10BASE-T: UTP category 3, 4, 5 cable (maximum 100m)
	EIA/TIA-568 100ohm STP (maximum 100m)
	100BASE-TX: UTP category 5, 5e cable (maximum 100m)
	EIA/TIA-568 100ohm STP (maximum 100m)
	1000Base-T: UTP category 5, 5e cable (maximum 100m)

ComX Computers

Product Specification Sheet

LED	Status
Wireless Standards	IEEE802.3, IEEE802.3u, IEEE802.3ab, IEEE802.3x
Data Rates	10/100/1000Mbps for Half-Duplex mode
	20/200/2000Mbps for Full-Duplex mode
LED Indicator	1000Mbps Link/Act, 100Mbps Link/Act, 10Mbps Link/Act
Dimensions	3.1 x 4.8 x 0.8 in (78.5 x 120.8 x 21.5mm)
Flow Control	IEEE 802.3x Flow Control (Full-Duplex)
OTHERS	
Certification	CE, FCC, RoHS
Package Contents	Gigabit PCI Express Network Adapter TG-3468
	Resource CD
	Quick Installation Guide
	Low-Profile Bracket
System Requirements	Windows 10(32/64bits), Windows 8.1(32/64bits), Windows 8(32/64bits), Windows 7(32/64bits), Windows Vista(32/64bits), Windows XP
Environment	Operating Temperature: 0degreesC~40degreesC (32degreesF~104degreesF)
	Storage Temperature: -40degreesC~70degreesC (-40degreesF~158degreesF)
	Operating Humidity: 10%~90% non-condensing
	Storage Humidity: 5%~90% non-condensing
