TP-Link 1 WAN port + 4 LAN ports, Cable/DSL Router for Home, Dial-on-demand, Firewall, DHCP, DMZ host, VPN pass-through, supports PPPoE, Dynamic IP, Static IP, L2TP Internet Access

Specifications

Overview:

Create a wired network in your home using the TP-LINK 4-Port Cable/DSL Router (TL-R402M). Connect this Wired Router to a broadband modem and share your high-speed Internet access, check email, share files, and enjoy online gaming. It connects to the Internet automatically or on demand and disconnects when idle to save on network costs. Quick Setup Wizard is supported and friendly help pages are provided for every step.

Features:

- 4 10/100Mbps LAN ports for Internet sharing locally, ideal for home and office users
- Built-in-firewall supports IP address filtering, Domain Name filtering, and MAC address filtering
- Dynamic DNS helps you realize the remote management easily with the domain name
- Easy to install with Quick Setup Wizard

Share Resources and Simplify the Network
The built-in 4-port switch provides computers on the LAN with network connectivity and Internet access. Connect up to four PCs or other networking devices to access home or office resources and use the Internet. Switching capabilities have been integrated into this device to efficiently manage your network traffic.

Network Security Protection
TL-R402M includes a built-in strong firewall for safeguarding your network from hackers and malicious attacks from across the Internet, such as DoS attack, ARP virus attack, etc. For added convenience, it supports access control based on MAC address, IP address, or domain name. So parents and network administrators can establish restricted access policies for children or staff.
