Detects motion and sends you alerts right away
Home burglary is the very thing we want to prevent. Set a camera towards the entrance of your home, garage, or basement to ensure the safety of your family and property.
Receive a notification when the camera detects motion at home. It can be a notice of arriving package, or suspicious intrusion. Trigger light and sound effects to frighten away unwanted visitors.

Advanced night view helps guard you while you sleep
Sleep safe at night. Let your camera watch over your house while youre fast asleep. The 850 nm infrared night vision supports automatic color switch filter in low light conditions with a visual distance of up to 30 ft.

High definition video
Capture every detail in 3MP ultra-high definition. See exactly what happened in front of your camera any time that it was on. Know whether your kids are safe, well taken care of, or are getting into trouble.

Live view and two-way audio
When you take a trip, you can still make sure your fur babies arent getting into trouble, or that your sitter is taking good care of them. Two-way audio allows you to tell them that you miss them (or to stop them from sharing your food).

Oh boy, leave the biscuits alone!

Privacy mode and safe local storage ensures your privacy
You can turn on Privacy Mode, which can shut down the surveillance to further ensure the safety of privacy. Moreover, the local Micro SD card works to prevent any internet hacking incidents.

- Privacy ModeShut down surveillance to protect your privacy whenever you want.
- Local StorageA microSD card stores up to 256 GB, equal to 512 hours (21 days) of footage. (based on laboratory conditions)

Get a detailed look at your room
A wide range of coverage to capture every moment.

Share every memorable moment
Adorable and amusing moments are worth of sharing, especially with loved ones far away. Keep them in the loop on your day to day and part of your life with every precious second you share.

A tap leads to what matters most to you
The free Tapo Camera app puts everything you need at your fingertips.

- Check the video box to playback previous records Choose a camera and locate what you want according to date.

- Set a schedule to check periodic video The camera automatically records videos based on your schedule.
- Set camera at a fixed angle base on your needs Choose an angle and click the save button, then you are all set.
- Check what happens in multiple Tapo cameras with one app
