# TP-UE300

TP-Link USB 3.0 to Gigabit Ethernet Network

## Product Overview

TP-Link UE300 USB 3.0 to Gigabit Ethernet Network, RTL8153 Chipset

## Specifications

### Overview Summary:

The TP-Link UE300 USB 3.0 to Gigabit Ethernet Adapter offers a simple and effective way to enjoy fast, reliable wired internet on modern laptops and ultrabooks without Ethernet ports. With USB 3.0 technology and Gigabit speeds, it ensures smooth streaming, gaming, and large file transfers. Its plug-and-play setup makes it ideal for both tech-savvy and everyday users. Buy now to experience stable connectivity wherever you go.

Compact and lightweight, the UE300 features a foldable design that fits easily in your laptop bag-perfect for travel, work, or study. Compatible with Windows, macOS, Chrome OS, and Linux, it's a must-have accessory for anyone needing quick, dependable wired network access. Shop now and upgrade your connectivity today.

**Performance tier:**High-speed consumer-grade

**Uses:**Laptops without Ethernet ports, ultrabooks, MacBooks, travel connectivity, online gaming, video streaming, file transfers

## Overview:

**TP-Link UE300 USB 3.0 to Gigabit Ethernet Adapter (RTL8153 Chipset)**
The TP-Link UE300 USB 3.0 to Gigabit Ethernet Adapter is designed to deliver high-speed, stable, and reliable wired network connections for laptops and ultrabooks that lack an Ethernet port. With USB 3.0 technology and a compact, foldable design, this adapter ensures maximum performance and portability for modern computing needs.

## Description:

The TP-Link UE300 offers Gigabit-speed connectivity via a USB 3.0 interface, providing faster and more consistent network access compared to wireless connections. It is compatible with a wide range of operating systems, requires no driver installation for most setups, and is perfect for users who need a portable, plug-and-play Ethernet solution. Its compact and foldable design makes it an ideal accessory for travelers, students, and professionals on the move.

## Features:

**High-Speed Data Transfer**
Equipped with a USB 3.0 interface and a Gigabit Ethernet port, the UE300 delivers transfer speeds of up to 1000 Mbps. It ensures smooth and stable connections for data-intensive activities such as video streaming, large file transfers, and online gaming.

**Portable Foldable Design**

- Compact body fits easily into a pocket or laptop bag
- Foldable cord provides convenient storage
- Lightweight and travel-friendly construction

**Simple Plug-and-Play Setup**
The adapter supports driver-free installation for Windows (XP and later), macOS (10.9 and newer), Chrome OS, and Linux systems. For older macOS versions (10.6 to 10.8), drivers can be downloaded directly from the TP-Link website.

**Enhanced Connectivity for Modern Devices**
Ideal for ultrabooks, MacBook Air, and other laptops without built-in Ethernet ports, the UE300 expands connectivity through a USB 3.0 interface. It is backward compatible with USB 2.0 and USB 1.1, ensuring versatile use across various devices and systems.

**Key Points**

- Provides Gigabit Ethernet speeds up to 1000 Mbps
- USB 3.0 ensures fast and reliable data transfer
- Compact and foldable for portability
- Compatible with major operating systems
- No driver installation required for most platforms

This adapter offers a seamless way to enhance your device's wired connectivity without compromising on speed, convenience, or design.

## Specifications:

| | |
|---|---|
| **Product Code** | TP-UE300 |
| **Dimensions** | 2.8 x 1.0 x 0.6 in. (71 x 26 x 16.2mm) |
| **Output Interface** | 1 10/100/1000Mbps RJ45 Ethernet Port |
| **Input Interface** | 1 USB 3.0 Port |

| | |
|---|---|
| **Chipset** | RTL8153 |
| **Supported Systems** | Windows 10/8.1/8/7/Vista/XP |
| | Mac OS 10.6-10.14 |
| | Chrome OS |
| | Linux OS |
| **Package contents** | USB 3.0 to Gigabit Ethernet Network Adapter, Quick Installation Guide |
