TP UH400

TP-Link USB 3.0 4 port Hub

Product Overview

TP-Link UH400 USB 3.0 4 port Hub, USB 3.0 Type-A Input Interface, 4x USB 3.0 Ports Output Interface, Connects up to 4 devices simultaneously including Flash drives and printers, Built-In USB Connector cable for Portable use without external Power, via VL812 Chipset with latest Firmware installed, Ready to use out of the Box without rebooting or installing Software

Specifications

Overview Summary:

Enhance your connectivity with the TP-Link UH400 USB 3.0 Hub, the perfect solution for South African users needing reliable expansion for their laptops or desktops. This compact device allows you to connect up to four USB devices simultaneously, enjoying transfer speeds that are ten times faster than standard USB 2.0 hubs without the hassle of installing drivers.

Ideal for professionals and students alike, this hub supports a wide range of peripherals including external hard drives, printers, and smartphones across Windows, Mac OS X, and Linux systems. Its plug-and-play design ensures you can start working immediately after connecting it to your computer. Buy now to streamline your workflow and maximize the utility of your available ports.

Performance tier: High Speed

Uses: Connecting external hard drives, printers, mice, keyboards, smartphone charging

Overview:

The TP-Link UH400 is a high-performance USB 3.0 hub designed to expand the connectivity of your laptop or desktop computer instantly. With part number TP UH400, this compact accessory transforms a single USB port into four high-speed connections, allowing you to attach multiple peripherals simultaneously without the need for complex setups. It serves as an essential tool for professionals and students who require reliable data sharing and device management on the go.

Description:

The TP-Link UH400 offers a seamless way to connect up to four USB devices, delivering transfer speeds up to 10 times faster than traditional USB 2.0 standards at an impressive 5Gbps rate. Its ultra-portable form factor and plug-and-play design ensure that you can expand your connectivity anywhere without worrying about driver installation or bulky cables.

Features:

Expanded Connectivity for Modern Workflows
This hub acts as a versatile bridge between your computer and various peripherals, effectively eliminating the frustration of running out of available ports. Whether you need to connect external hard drives for massive file transfers, add extra USB flash drives for data storage, or attach input devices like mice and keyboards, this solution handles it all with ease. The design allows users to chain multiple hubs together if even more ports are required, providing a scalable approach to connectivity.

- Connect up to 4 high-speed devices simultaneously
- Transfer data at speeds reaching 5Gbps for rapid file sharing
- Supports a wide range of peripherals including printers and smartphones
- Backward compatible with USB 2.0 and 1.1 devices

Rapid Data Transfer Capabilities
Powered by the robust VIA VL812 chipset, this device ensures stable and lightning-fast communication between your computer and connected storage or input devices. Users can enjoy significantly reduced wait times when moving large files, making it ideal for content creators and data analysts who rely on speed. The transmission efficiency is optimized to maintain performance even when multiple high-demand devices are active at the same time.

Sleek and Portable Design
The UH400 features an ultra-compact footprint measuring just 2.8 x 2.8 inches, making it easy to slip into a laptop bag or pocket for travel. Its lightweight construction does not compromise on durability, ensuring that the hub remains reliable whether

you are working from a home office or a coffee shop. The integrated USB connector cable is built directly into the unit, removing the clutter of loose wires and simplifying your workspace setup.

Instant Plug-and-Play Operation
Say goodbye to tedious driver installations and system reboots. This hub is fully compatible with Windows 10, 8.1, 8, 7, Vista, XP, Mac OS X, and Linux systems right out of the box. Once connected, the device is recognized immediately by your operating system, allowing you to start using your peripherals instantly without any additional software configuration.

Technical Specifications:

The following details outline the core capabilities and physical attributes of the TP-Link UH400 hub:

- Input Interface: USB 3.0 Type-A
- Output Interfaces: 4 x USB 3.0 Ports
- Chipset: VIA VL812 with latest firmware
- Dimensions: 71 x 71 x 16.6 mm (2.8 x 2.8 x 0.7 in)
- Supported Operating Systems: Windows, Mac OS X, Linux

What's in the box

- TP-Link UH400 USB 3.0 4-Port Portable Hub
- Quick Installation Guide

Specifications:

Dimensions	2.8 x 2.8 x 0.7 in. (71 x 71 x 16.6 mm)
Output Interface	4 USB 3.0 Ports
Input Interface	USB 3.0 Type-A
Chipset	VIA VL812 Chipset with Latest Firmware
Supported Systems	Windows, Mac OS X and Linux systems
Package contents	USB 3.0 4-Port Portable Hub UH400
	Quick Installation Guide

FAQ

What operating systems are compatible with the TP-Link UH400?
The hub works seamlessly with Windows 10, 8.1, 8, 7, Vista, XP, Mac OS X, and Linux without requiring any drivers.

How fast is the data transfer speed on this USB hub?
The TP-Link UH400 supports transfer speeds up to 5Gbps, which is approximately 10 times faster than the standard USB 2.0 protocol.

What types of devices can I connect simultaneously?
You can plug in and run up to four USB-based devices at once, such as flash drives, mice, printers, external hard drives, or smartphones for charging and syncing.

Do I need to install software drivers to use the UH400 hub?
No driver installation is required; simply connect the built-in cable to your computer and plug in your devices to start using it immediately on supported systems.

What are the physical dimensions of this USB hub?
The TP-Link UH400 features an ultra-compact design measuring 2.8 x 2.8 x 0.7 inches (71 x 71 x 16.6 mm), making it highly

portable for travel.
