TS-DP110M-64G

Transcend DrivePro 110 dash camera with 64GB MicroSD card

Product Overview

Transcend DrivePro 110 dash camera with 64GB MicroSD card Transcend, 1920x1080 Resolution at 30 fps, 130 Degree Diagonal Field of View, 2.4" Color LCD Screen, Built-In LiPo Battery, Built-In Microphone and Speaker, G-Sensor, Emergency Recording, 64GB microSDHC Card Included, Suction Mount Included

Specifications

Overview:

DrivePro 110

Road safety is important. Transcend's DrivePro 110 dashcam utilizes a Sony image sensor to provide high-resolution images with extremely fine tonal gradation even in low light. In addition, the DrivePro 110 features a built-in battery, a handy snapshot button, emergency recording, headlight reminder, and driver fatigue alert.

Features:

Sony high-sensitivity image sensor

The DrivePro 110 uses a Sony sensor to capture high-resolution images with superb, rich color even in low light. Its built-in Wide Dynamic Range (WDR) technology balances the light and dark areas of captured images, ensuring that every critical shot is as clear as possible.

Built-in battery

A built-in Li-Polymer battery ensures uninterrupted power to the device. Video will continue to be recorded and stored in the

event of an accident or when the engine is off.

Handy snapshot function

The snapshot button allows you to take photos while still recording video. During an incident, you can remove the DrivePro 110 from the vehicle to create a photographic record of collision damage.

Emergency recording

In the event of a collision, the DrivePro 110's motion G-sensor detects the impact and triggers emergency recording mode. This prevents overwriting of the file being recorded at the time. This feature can also be manually activated by pressing the red button on the side of the unit.

24/7 Guardian

In addition to on-the-road safety, the DrivePro 110 stands sentry when the vehicle is parked. Enabling time-lapse video recording means you can get right to the heart of the matter without needing to view hours of incident-free footage.

Note: This feature requires external power supply after the car engine is switched off.

Headlight reminder

When the DrivePro detects poor lighting conditions, for example at dusk, or in dark places such as a tunnel and basement, the headlight reminder will automatically activate.

Driver fatigue alert

To help prevent tired drivers from getting into an accident, the driver fatigue alert regularly reminds the driver of the need to rest after driving for a preset, driver-determined period of time.

Exclusive DrivePro Toolbox software

In addition to playback, Transcend's DrivePro Toolbox features a sorting function to quickly locate video clips by file name, recording date, or group. The DrivePro Toolbox also provides a screenshot function allowing for the capture of a single frame.

A microSD card included

The DrivePro 110 comes bundled with a Transcend memory card built of high-quality NAND flash, and tested under harsh environmental conditions.

Specifications	
Product Code	TS-DP110M-64G
Appearance	
Dimensions (Max.)	70.2 mm x 63.1 mm x 32.5 mm (2.76" x 2.48" x 1.28")
Weight (Max.)	71 g (2.50 oz)
Interface	
USB Type	micro USB to car lighter adapter
Connection Interface	USB 2.0
Hardware	
Display	2.4" color TFT LCD
Viewing Angle for Lens	130 degrees (diagonal)
Aperture	F/2.0
Operating Environment	

Operating Temperature	-20 degreesC (-4 degreesF) ~ 65 degreesC (149 degreesF)
Storage Temperature	-25 degreesC (-13 degreesF) ~ 70 degreesC (158 degreesF)
Input Voltage	12V ~ 24V
Output Voltage	5V / 1A
Note	Do not operate the DrivePro dashcam while driving
	If the lighter socket in your car continues to provide power after the engine is switched off, unplug the DrivePro when the engine is off or idling to reduce unnecessary power consumption and prevent malfunction.
Format	
Resolution	Full HD 1080P
Frame Rate	30 fps
Video Format	MOV (H.264)
Package	
Package Contents	Full unit/ microSD memory card/ Car mount/ Car lighter adapter/ Warranty card/
	Quick Start Guide
System Requirement	
Operating System	Microsoft Windows 7
	Microsoft Windows 8
	Microsoft Windows 10
	OS X Mountain Lion 10.8.2 or later
	Linux Kernel 2.6.38 or later
Memory Card Supported	8 GB/ 16 GB/ 32 GB/ 64 GB/ 128 GB
Note	In addition to the bundled microSD card, we recommend Transcend's High Endurance microSD cards or MLC-based memory cards to ensure the best recording performance.
	16GB/32GB High Endurance microSDHC card (TS16GUSDHC10V / TS32GUSDHC10V)
	64GB/128GB High Endurance microSDXC card (TS64GUSD350V / TS128GUSD350V / TS64GUSDXC10V)
