Transcend DrivePro Body 40 2K QHD Body Camera with 128GB Memory

Product Overview

Transcend DrivePro Body 40 2K QHD Body Camera with 128GB Memory, IP68, 2K QHD at 60 fps, Sony Sensor and Infrared LED lights, 2.4GHz Wi-Fi, USB Type-C, 130 degrees viewing angle, 11 hours Battery Life, H.264 Video Format

Specifications

Overview:

DrivePro Body 40

Transcend's DrivePro Body 40 is equipped with a Sony sensor and infrared LED lights, allowing it to capture 2K video at 60fps in both day and night settings. Its image stabilization and GPS/GLONASS tracking ensure high precision and stable footage. With an IP68 rating, this camera is built to withstand diverse working environments and offers up to 11 hours of recording time. This makes it an invaluable tool for law enforcement personnel and security guards, providing reliable and high-quality evidence collection during their duties, regardless of the conditions.

Features:

Unparalleled Clarity In Any Light

The DrivePro Body 40 utilizes Sony STARVIS 2 technology, offering 2K QHD 1440P video at 60fps. It captures dynamic images clearly, presenting detailed layers of the scene. With enhanced sensitivity, it balances areas with insufficient light and intense illumination, delivering high-resolution image quality even in low-light conditions.

Note: STARVIS 2 is a trademark of Sony Corporation.

Infrared LEDs for Night Vision

The DrivePro Body 40 is equipped with four infrared LEDs that automatically activate in low-light conditions to enhance night vision capabilities. This feature significantly improves recording quality in complete darkness.

Image Stabilization

The DrivePro Body 40 comes with electronic image stabilization function (EIS), minimizing the effects of vibration and shaking to produce images with higher stability and precision.

GPS/GLONASS Tracking

The DrivePro Body 40 has a built-in GPS/GLONASS receiver for geotagging videos and images. With the exclusive DrivePro Body Toolbox, users can view their route on a map display during video playback, making it easy to establish when and where an event occurred.

Wireless Connectivity & Instant Preview

The DrivePro Body 40 supports both Bluetooth wireless technology for basic setup and mode switching, as well as Wi-Fi connectivity for live streaming videos to iOS and Android mobile devices. These functions can all be accessed through the DrivePro Body App.

IP68 Protection

The DrivePro Body 40 is designed to endure harsh environmental conditions, making it ideal for firefighters, police officers, security guards, and rescue teams for outdoor recording. It is IP68 rated, providing full protection against dust and water, and meets rigorous U.S. military drop-test standards for shock resistance.

Note: 1. The DrivePro Body 40 was tested under controlled laboratory conditions and given a rating of IP68 under IEC standard 60529. Splash, water, and dust resistance are not permanent conditions and resistance may decrease as a result of normal wear. Product must be clean and dry before use. Liquid damage is not covered under Warranty. 2. US military drop-test standards based on MIL-STD-810G 516.6-Transit Drop Test.

Long Battery Life

The DrivePro Body 40 has a built-in Li-Polymer battery, allowing up to 11 hours of video recording on a single charge. This allows police and other professionals to record over a full shift. Battery power indicator helps users check current battery level.

Capacious Storage Space

The DrivePro Body 40 has built-in 128GB storage for high quality videos, and DDR3 memory cache to temporarily store recorded videos.

Vibration alerts

Reminds users of operation in progress

Buffering mode

ComX Computers

Product Specification Sheet

Captures crucial footage while saving on storage space

Loop recording

Allows the body camera to overwrite old video files with new ones

High Dynamic Range (HDR)

Enhance the range of luminance levels to produce images with more detail and clarity in both bright and dark areas

Password

Protects data from unauthorized access

Stealth mode

Disables the light indicators, buzzer, and vibrator

Quick wakeup

Leader body camera enters recording mode, and other cameras in the same group automatically enter recording mode from off status

TAA compliance

Transcend's DrivePro Body products are compliant with Trade Agreements Act (TAA)

GPS EASY

Accelerates GPS positioning

Sustainable Packaging, Zero Plastics

The DrivePro Body 40 packaging is designed with sustainability in mind, eliminating single-use plastics in favor of fully recyclable paper materials. The eco-friendly printing ink used is free of mineral oils, reducing risks to both human health and the environment. Additionally, the packaging has been downsized to minimize material use and improve transportation efficiency, contributing to carbon reduction and greater environmental protection.

Specifications	
Product Code	TS128GDPB40A
Appearance	
Dimensions	95.9 mm x 52.2 mm x 27.6 mm (3.78" x 2.06" x 1.09")
Weight	136 g (4.8 oz)
Interface	
USB Type	USB Type-C
Connection Interface	USB 2.0
Wi-Fi Protocol	802.11n
Frequency	2.4 GHz
Storage	
Capacity	128GB internal memory
Hardware	
Viewing Angle	130 degrees (diagonal)
Aperture	F/2.0

ComX Computers

Product Specification Sheet

Power	
Battery Life (Max.)	11 hour(s)
Power Supply (Max.)	Output: DC 5V / 2A
Note	Battery life and charge cycles vary by resolution settings, Bluetooth and Wi-Fi usage, infrared activation, individual usage patterns, and other environmental conditions. Under minimal power consumption, the camera can record continuously for up to 11 hours on a single full charge. When using the default factory settings, the camera can record continuously for up to 7 hours on a full charge.
Format	
Resolution	2K QHD 1440P
Frame Rate	60/30 fps
Video Format	MP4 (H.264)
Operating Environment	
Operating Temperature	-20 degreesC (-4 degreesF) ~ 60 degreesC (140 degreesF)
Storage Temperature	-25 degreesC (-13 degreesF) ~ 70 degreesC (158 degreesF)
IP Rating	IP68
Certificate	CE / UKCA / FCC / BSMI / NCC / MIC / KC / EAC / RCM /
Package	
Package Contents	Full unit / USB Type-C to Type-C cable / USB Type-C to Type-A cable / 360 degrees rotatable clip / Velcro holder /
System Requirement	
Operating System	Microsoft Windows 10 or later
	macOS 10.14 or later
