Specifications

About this product

The Transcend JetFlash 700 128GB USB 3.0 Flash Drive delivers fast and reliable portable storage for documents, photos, videos, music, and backups. Featuring a USB 3.1 Gen 1 interface that is fully compatible with USB 3.0 and USB 2.0 devices, it offers convenient high speed data transfers in a compact design. It also supports Transcend Elite software and USB boot device functionality, making it an excellent choice for everyday personal and business use. Buy now from our website for quick delivery in South Africa.

Overview Summary

Transcend JetFlash 700 USB 3.0 Flash Drive 128GB

The Transcend JetFlash 700 is a dependable high speed USB flash drive designed for users who need portable storage with excellent compatibility. Its USB 3.1 Gen 1 interface enables significantly faster file transfers than older USB 2.0 devices while remaining backwards compatible with existing USB ports.

ComX Computers

Product Specification Sheet

The durable housing features a smooth finish with an LED activity indicator that displays power and data transfer status. The included support for Transcend Elite software provides useful file management features, while USB boot device functionality makes it suitable for IT professionals and system administrators.

Performance tier:Entry-level USB 3.x flash storage

Uses:File storage, document backup, media transfer, operating system installation, USB boot device, portable office files, everyday data transport

Overview

The JetFlash 700/730 supports USB 3.1 Gen 1 standard, making it much easier to get access to your rich digital content. With a combination of speed and beauty, the JetFlash 700/730 is a perfect entry-level USB 3.1 Gen 1 peripheral for those who demand stylish aesthetics with leading technology.

Description

The Transcend JetFlash 700 combines reliable flash storage with a high speed USB interface to simplify moving and backing up large files. It is suitable for home users, students, professionals, and businesses that require dependable portable storage for daily use.

The USB 3.1 Gen 1 interface supports fast data transfers when connected to compatible systems while maintaining compatibility with USB 2.0 ports. The compact USB Type-A design fits most desktop and notebook computers, making it a practical storage solution for work, school, and travel.

Transcend Elite software provides additional file management features including backup, restore, data encryption, and cloud backup functions. USB boot device support also allows the drive to be used for operating system installation and system recovery tasks where supported by the host computer.

FAQ

What can I store on the Transcend JetFlash 700 128GB?

The 128GB capacity is suitable for documents, presentations, photos, videos, music, software installers, and backups.

Does this flash drive work with USB 2.0 ports?

Yes. The JetFlash 700 is fully backwards compatible with USB 2.0 ports, although transfer speeds will be limited by the USB 2.0 interface.

Can this flash drive be used as a bootable USB drive?

Yes. The JetFlash 700 supports USB boot device functionality, allowing it to be used for operating system installation or recovery when supported by the computer BIOS or UEFI.

Is Transcend Elite software included?

The drive supports Transcend Elite software, which provides backup, restore, encryption, and file management features through a separate download.

Which operating systems are supported?

The drive is compatible with Microsoft Windows, macOS, Linux, ChromeOS, and Android devices that support USB storage.
