U273-4GB-BK

PQI U273 USB 3.0 4GB Compliant Flash Drive

Product Overview

PQI U273 USB 2.0 Compliant Flash Drive - 4GB - Plug & Play, USB Boot Support, Ultra-Small Design, High Speed

Specifications

Overview:

The U273V Traveling Disk features the superior data transfer performance of USB3.0, stable output current, low power consumption, backward compatibility to USB2.0, and simultaneous read/write data access all packaged in the industry smallest design to date. The PQI U273V's slender thumb-sized design represents a breakthrough in market of USB3.0 travelling disks with thick, bulky profiles, making it the new leading standard in the industry.

Features:

USB 3.0 Super Speed and Energy Saving (backwards compatible with USB 2.0)
The USB 3.0 interface delivers fast data transfer rates, is backwards compatible with USB 2.0 and is more energy efficient.

Unique design without losing the cap
Thanks to the device's hidden clip design, the cap is held securely while the disk is plugged in to prevent loss of the cap.

LED Indicator Light
LED light at the bottom of the disk indicates disk activity during use.

Special sandblasting treatment prevents smudges/fingerprints
Special sandblasting surface treatment with matte finish is scratch-resistant, even when pocketed with keys and other objects.

Compact, light-weight, and slender design
Meticulously designed thumb-sized device is unique, slender, and compact.

Specifications:

Interface	USB3.0
Capacity	4GB
Data Transfer Rate	R: 90MB/s; W: 18.5MB/s (on a standard 32GB unit)
OS Supported	Windows 2000, XP, Vista, 7 / Mac 10.x or above
Power Supply	DC 3.3V/ 5V
Dimensions	53.8 x 17.2 x 8.6 mm (2.12 x 0.68 x 0.34 in)
Weight	7 g (0.02 lb)
Environment	?Operating temperature: 0 to 65degreesC
	?Storage temperature -20degreesCto 75degreesC
Other Information	?Please avoid placing the drive near static or strong magnetic fields
	?Important!Please confirm your USB flash drive model number before downloading any application software for use.
	?The application software provided can only function on Microsoft operating systems. MAC OSX and LINUX operating systems are NOT supported.
	?The advertised memory capacity of this device represents unformatted capacity. Please note that once formatted and due to variations in flash module block limitations, the functional storage space will be lower than the advertised capacity
