Specifications

Features:

Introducing the UB-ETHSP, Ethernet Surge Protector, from Ubiquiti Networks. It is a cost-effective solution for protecting outdoor Ethernet devices from damaging electrostatic discharge and surges.

The ETH-SP is engineered to protect Power-over-Ethernet (PoE) or non-PoE devices with connection speeds of up to 1 Gbps. Two passive, surge-protected RJ45 connections provide maximum equipment compatibility. Compatible with 10/100/1000 Mbps Networks

It is ideal for WISP Networks as damaging ESD attacks and surges will be absorbed by the ETH-SPs and safely discharged into the ground.
