UB-UCK-G2-SSD

Ubiquiti UCK-G2-SSD UniFi Console with 1TB SSD

Product Overview

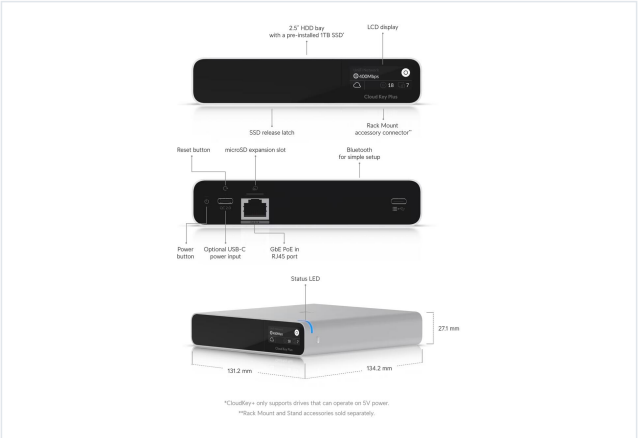

Ubiquiti UCK-G2-ssd UniFi Console that connects directly to the site manager for powerful multi-application site management, Pre-Installed 1TB SSD, PoE, Bluetooth, Includes full UniFi Application suite for device management, 1x GbE RJ45 Port, 32GB eMMC, 3 GB RAM, Octa-core Arm Cortex A53 based Chip Processor, 1.42" gray-scale OLED Display

Specifications

Overview Summary:

The Ubiquiti UCK-G2-SSD UniFi Console delivers seamless, centralized control for your network devices in South Africa. With its pre-installed 1TB SSD, 3GB RAM, and octa-core processor, it provides fast, reliable performance for managing multiple devices effortlessly. PoE support and Bluetooth connectivity simplify installation, while the full UniFi application suite ensures smooth configuration and monitoring. Shop now to streamline your network management and improve efficiency.

Performance tier: High-performance

Uses: Network device management, Site monitoring, PoE device control, Multi-application management, UniFi network configuration

Overview:

Ubiquiti UCK-G2-SSD UniFi Console for Seamless Site Management
The Ubiquiti UCK-G2-SSD UniFi Console is designed for efficient, centralized control of your network devices. It connects directly to the Site Manager at https://unifi.ui.com/ and provides powerful multi-application management in a compact design, making it ideal for businesses and network administrators looking to simplify device monitoring and control.

Description:

Equipped with a pre-installed 1TB SSD and an octa-core processor, this UniFi Console ensures fast, reliable performance for managing multiple devices. PoE support allows convenient power and connectivity through a single cable, while Bluetooth enables quick setup. The 1.42" OLED display provides real-time system information, and the full UniFi application suite allows seamless device configuration and monitoring.

Features:

Key Benefits for Users

- Centralized management of multiple UniFi devices through a single console
- High-speed performance with 3GB RAM and octa-core processor
- Large 1TB SSD for extensive data storage and smooth operation
- Simple setup using Bluetooth connectivity
- Flexible power options including PoE and USB-C Quick Charge support

Connectivity and Performance

- 1x GbE RJ45 port for stable wired network connections
- 32GB eMMC memory for system operations
- 3 GB RAM ensures smooth multitasking
- Octa-core Arm Cortex A53 processor handles multiple applications efficiently
- 1.42" gray-scale OLED display for monitoring device status at a glance

Power and Setup Options

- Powered through PoE for easy single-cable installation
- Optional USB-C power with Quick Charge 2.0/3.0 adapters
- Bluetooth support for fast, hassle-free setup

Included Software

- Full UniFi Application suite for complete device management
- Simplifies configuration, monitoring, and network maintenance

This UniFi Console is a compact, high-performance solution for professionals managing multiple network sites, combining convenience, speed, and robust control in one device.

Specifications	
Product Code	UB-UCK-G2-SSD
Mechanical	
Dimensions	131.2 x 27.1 x 134.2 mm (5.2 x 1.1 x 5.3")
Weight	560 g (1.2 lb)
Enclosure material	Anodized aluminum
Hardware	
Processor	Octa-core Arm Cortex -A53 based chip
Management interface	Ethernet
	Bluetooth
Networking interface	(1) GbE RJ45 port
Memory	32 GB eMMC
	3 GB RAM
SSD capacity	1 TB 2.5" SATA SSD (user-upgradeable*)
	*CloudKey+ only supports drives that can operate on 5V power. Drives that require additional power are not supported.
Power method	PoE
	Quick charge 2.0/3.0 power adapter, 9V DC, 2A
Max. power consumption	9.6W
Display	1.42" gray-scale OLED
LEDs	(1) Power: white/blue
Buttons	(1) Power
	(1) Factory reset
Ambient operating temperature	0 to 35degrees C (32 to 104degrees F)
Ambient operating humidity	20 to 80% noncondensing
Certifications	FCC, CE, IC
Capacity	
HD cameras	24
2K cameras	14

4K cameras	8
	*Assumes the UCK-G2-PLUS is dedicated to UniFi Protect only. If it's also running UniFi Network, your maximum camera limit will be lower.
