UNICH

Microworld Universal 3V to 12V charger

Product Overview

Microworld Universal 3V to 12V charger, Six different detachable DC plugs, Inner positive (+), Outer negative (-)

Specifications

Overview Summary:

The Microworld Universal 3V to 12V Charger is a compact, flexible charging solution for South African buyers who need reliable power for small electronics. Equipped with six detachable DC plugs and adjustable voltage settings, this charger works safely with devices like routers, speakers, CCTV cameras, and LED strips. Shop now to simplify charging multiple gadgets with a single, versatile charger.

Buyers can easily select the correct voltage for their devices, ensuring safe and efficient power delivery. Its lightweight design makes it convenient for use around the home or office, offering a practical solution for everyday electronic needs. Order today and keep your electronics charged without hassle.

Performance tier: Standard

Uses: Charging small electronics, routers, portable speakers, CCTV cameras, LED strips, other compatible gadgets

Overview:

Microworld Universal 3V to 12V Charger for Small Electronics
The Microworld Universal Charger is a versatile power solution designed to safely charge a variety of small household and electronic devices. With adjustable voltage settings ranging from 3V to 12V and multiple detachable DC plugs, this compact charger ensures compatibility with most gadgets while delivering reliable power.

Description:

This universal charger supports input voltages from 110V to 240V and offers output options of 3V, 4.5V, 5V, 6V, 7.5V, 9V, and 12V with a maximum power output of 12W. It comes with six detachable DC plugs, accommodating a wide range of devices such as routers, speakers, CCTV camera systems, and LED strips. The charger is designed with inner positive and outer negative polarity, but some musical instruments may require the reverse configuration, so checking your device before use is

essential.

Features:

Compact Design with Multiple DC Plugs

- 5.5x2.5mm
- 5.5x2.1mm
- 4.0x1.7mm
- 3.5x1.35mm
- 3.0x1.1mm
- 2.5x0.7mm

Safe and Adjustable Voltage

- Suitable for devices using AA or AAA alkaline batteries (1.5V per cell)
- Select the correct voltage according to the number of batteries (e.g. 2 batteries = 3V, 3 batteries = 4.5V, 4 batteries = 6V)
- Important: Using the wrong voltage may damage your device

Wide Device Compatibility
This multi-voltage adapter works with a variety of small electronics, including:

- Home routers
- Portable speakers
- CCTV camera systems
- LED strip lights
- Other compatible devices

Limitations

- Not suitable for laptops or high-power equipment
- Small household devices usually lack circuit protection, so correct voltage selection is critical

Technical Details

- Input: AC 100V-240V
- Output: 3V / 4.5V / 5V / 6V / 7.5V / 9V / 12V
- Maximum power: 12W
- Maximum current: 3A

Package Includes

- 1 x Universal Charger
- 6 detachable DC plugs
- 6-month Warranty
