Proline 1200VA 600Watt Line Interactive UPS

Product Overview

Proline 1200VA 600Watt Line Interactive UPS

Specifications

Features:

- The primary advantage to a UPS is that in cases of sudden power loss the UPS will continue to power the computer system long enough for you to save your work.
- Additionally, in environments which have problems with "dirty power"... meaning the electrical supply may have sudden spikes or dips such as in an older building or neighborhood the UPS offers a great deal more protection than a standard surge suppressor would.
