UGreen USB Type-C to Type-B Male printing cable 2m - Black

Product Overview

UGreen USB Type-C to Type-B Male printing cable 2m - Black, USB 2.0 Standard with Data transfer speeds up to 480 Mbps, USB Type-C Male Connector compatible with Thunderbolt 3 Ports, USB-B 2.0 Male Connector for printers and scanners, cable length of 2m for Flexible Desk setups, Black Colour finish, Triple shielding

Specifications

Overview Summary:

Upgrade your office setup with the UGreen USB Type-C to B Printing Cable, designed specifically for South African buyers seeking reliable connectivity between modern laptops and legacy printers. This 2-meter black cable eliminates the need for adapters or drivers, offering plug-and-play convenience that supports data transfer speeds up to 480 Mbps. Its triple-shielded construction ensures a stable connection free from interference, making it ideal for consistent printing performance in busy home or office environments.

Don't let connectivity issues slow down your workflow; secure this durable and efficient cable today to enhance your device compatibility. Buy now to experience seamless data transfer and reliable communication between your USB-C devices and Type-B peripherals without the hassle of additional hardware.

Performance tier:Standard Reliable

Uses:Connecting laptops to printers, linking scanners to computers, fax machine connectivity, general peripheral data transfer

Overview:

The UGREEN USB Type-C to B Male Printing Cable, part number US241-50446, is the ideal solution for connecting modern laptops and desktop computers equipped with USB-C ports to legacy or specialized printers, scanners, and fax machines using a standard USB Type-B connection. This 2-meter cable eliminates the need for any external adapters, dongles, or software drivers, allowing you to establish a direct link between your device and peripheral instantly. Designed for reliability in office environments, the cable supports high-speed data transfer rates of up to 480 Mbps via the USB 2.0 standard, ensuring smooth communication without bottlenecks.

Built to withstand daily use and interference, this cable incorporates a robust triple-shielding system consisting of tinned copper conductors, aluminum foil, and a dedicated ground wire. This construction effectively guards against electromagnetic interference (EMI), maintaining signal integrity even in electrically noisy settings. The durable black design fits seamlessly into any workspace, offering sufficient length to position your printer comfortably away from your computer without the stress of short cables.

Description:

This UGREEN USB Type-C to B cable is engineered for seamless connectivity between modern USB-C devices and traditional USB-B peripherals. It offers plug-and-play convenience with no drivers required, ensuring immediate functionality upon connection. The 2-meter length provides flexible reach for office setups, while the triple-shielded construction guarantees stable data transmission at speeds up to 480 Mbps. Compatible with Thunderbolt 3 ports, this black cable is a reliable choice for printing and scanning tasks.

Features:

Key Connectivity Points

- Connects USB-C laptops and PCs directly to USB Type-B printers and scanners
- Plug-and-play operation requires no adapters or driver installation
- USB-C connector is fully compatible with Thunderbolt 3 ports
- Triple shielding protects against EMI for consistent performance

The technical specifications of the US241-50446 model are tailored for stability and ease of use. It operates on the USB 2.0 standard, which is sufficient for most printing tasks and ensures compatibility with a wide range of older and newer hardware.

The cable features a male connector on both ends, specifically designed to fit into the appropriate ports on your computer and peripheral device without forcing or damage.

Technical Specifications:

- Cable Color: Black
- Connector A: USB Type-C Male
- Connector B: USB-B 2.0 Male
- Total Cable Length: 2 Meters (approx 6.5 feet)
- Data Transfer Speed: Up to 480 Mbps
- Cable Construction: Non-braided with triple shielding

When you order this item, the package is designed to include exactly what you need to get started immediately. There are no missing components or extra accessories required for basic operation, making it a straightforward purchase for anyone needing to expand their printing capabilities.

What's in the box

- One UGREEN USB Type-C to B Male Printing Cable 2m - Black (Part Number US241-50446)

Braided	No

FAQ

Does this cable support high-speed data transfer for large files?

This UGreen USB Type-C to B Male Printing Cable operates on the USB 2.0 standard, supporting maximum data transfer speeds of up to 480 Mbps, which is suitable for stable communication with printers and scanners.

Will this cable work with my Thunderbolt 3 laptop?

Yes, the USB-C connector on this cable is compatible with Thunderbolt 3 ports, allowing you to connect modern laptops or PCs directly to USB Type-B peripherals without needing extra adapters.

Do I need to install drivers to use this cable?

No, this cable features a plug-and-play design that requires no additional software, drivers, dongles, or adapters for immediate operation.

ComX Computers

Product Specification Sheet

How long is the cable and what protection does it have against interference?

The cable measures 2 meters in length to provide flexible reach for desk setups. It also includes triple shielding made of tinned copper, aluminum foil, and a ground wire to guard against electromagnetic interference.

Is this cable braided or made with specific connectors?

This product features USB Type-C Male and USB-B 2.0 Male connectors in black and is not braided.
