Overview:**TRAVEL TRI GaN 3 Ports 66W Charger with USB PD and QC 3.0 in Black****Model Number**

: P1108ABK

Gallium nitride (GaN) is a high-performance charger compare to the traditional silicon used in charging devices. It achieves high power output with a compact size, ideal for charging anywhere. This 3 ports Black GaN charger equips with 2 x USB-C PD ports and 1 x USB-A QC port, together with replaceable plugs working worldwide for your laptops like MacBook Air, or tablets and smartphones, even when you're travelling abroad.

Features:

- Superior in craftsmanship and performance.
- Powerful GaN(gallium nitride) technology offers super-efficiency at current-transferring with low heat generation which also results in a compact and lightweight design.
- This travel charger can be applied globally. It equips foldable US plug and comes with EU, UK and AU adapter for replacement and supports the voltage-input under AC 100~240V, 50~60Hz, 1.7A Max.
- While with a single connection, USB-C Power Delivery(PD) port offers maximum 65W applying on laptop e.g. MacBook Air, and Qualcomm Quick Charge 3.0 USB port offers maximum 36W, meets most of the smartphones and tablets.
- In dual connections of both USB-C, it results in evenly maximum 30W power output. In another situation, USB-C will be in maximum 45W plus USB-A in maximum 18W.
- When all three ports connecting with devices, the 1st USB-C offers maximum 30W, 2nd USB-C and the USB-A in 18W. Total power output is 66W.
- Built-in four intelligent protection circuits against overvoltage, overcurrent, overheat and short circuit.
- With LED indicator, clearly express the working status.
